

- ☒ they needed protection against other villages that had guns.
- ☐ they were planning a war against the Europeans who wanted them shipped to America.
- ☐ they needed protection against epidemics that attacked their villages.

3. Complete the effect box after the cause has been provided.

Cause: One West African king refused to take part in the slave trade.	Effect: The Europeans got another group of West Africans to go to war against the king and many of his people were captured.
---	--

Teachers: Discuss the "Dilemma" at the end of section 8.4. What horrible choices did they face?

4. Discuss two to three of the "nightmares" that slaves faced during "The Middle Passage."

The slaves faced a terrible march just to make it to the ships. On the ships, the slaves were chained together and hardly had any room to move, stand up, or exercise. They received scores from beating to lay on the floorboards. The heat was unbearable and the ship was crawling with lice, flies, and rats.

5. Complete the effect after the cause has been provided.

Cause: Many of the Africans had never seen white skin before.	Effect: Many of the slaves thought the white men would kill and eat them, so they jumped off the ship or refused to eat.
---	--

Teachers: Again, this is another great place to discuss "Dilemma" since the slaves felt both of their choices were horrifying.

6. The slave revolt that happened on the ship *Amistad* in 1839 was quite different than other revolts because....

- ☒ the slaves actually triumphed over the captain and his crew and took over the *Amistad*.
- ☐ the slaves were forgiven by the captain and crew for the revolt.
- ☐ the crew of the *Amistad* sided with the slaves in the revolt.
- ☐ nobody actually died during this revolt.

7. Describe what occurred during each of the "Arrival in America" situations:

Separation:	Slave System:	Surviving Period:

stimulates solutions for a safer world *Experiencing Philosophy - Second Edition* Anthony Falikowski, Susan Mills, 2022-11-22 *Experiencing Philosophy* begins with the assumption that philosophy is not merely something you know but also something you experience and participate in. The book presents philosophical theories and ideas with reference to their practical relevance to the lives of student readers. To this end, a number of engaging features and inserts are provided: Original Sources: Numerous primary readings are included, introducing students directly to the philosophical work of diverse thinkers ranging from Plato to Martin Luther King Jr. Each reading is thoughtfully excerpted and is followed by reflective questions. Philosopher Profiles: Abstract ideas are connected to the lives of real historical figures through fascinating biographical profiles. Take It Personally: To illustrate how philosophy can be useful and relevant, each chapter begins by placing the material in a personal context. Know Thyself Diagnostics: This book takes seriously, as did Socrates, the Delphic Oracle's dictum to know thyself. Students are given self-diagnostics to explore their own philosophical values, ideals, and beliefs. Philosophers in Action: Philosophy is something you do, not just something you know. Prompts are provided throughout the text, inviting students to conduct thought experiments, analyze concepts, and discuss and debate controversial points. Thinking about Your Thinking: These metacognitive prompts require students to engage in higher-order thinking, not only about the presented readings and ideas but also with respect to their own values, assumptions, and beliefs. Plus: Built-in study guides, diagrams, famous philosophical quotations, comics, feature boxes, and more. *The Story of the World: History for the Classical Child: The Modern Age: Tests and Answer Key (Vol. 4) (Story of the World)* Susan Wise Bauer, Elizabeth Rountree, 2007-04-17 History has been taught in a boring way for far too long.
