Dangerous Allies Malcolm Fraser, Cain Roberts, 2016-04-12 Australia has always been reliant on great and powerful friends for its sense of national security and for

direction on its foreign policy first on the British Empire and now on the United States Australia has actively pursued a policy of strategic dependence believing that making a grand bargain with a powerful ally was the best policy to ensure its security and prosperity Dangerous Allies examines Australia's history of strategic dependence and questions the continuation of this position It argues that international circumstances in the world and in the Western Pacific especially now make such a policy highly questionable Since the fall of the Soviet Union the United States has also changed dramatically making it less relevant to Australia and a less appropriate ally on which Australia should rely Malcolm Fraser argues that Australia should adopt a much greater degree of independence in foreign policy and that we should no longer merely follow other nations into wars of no direct interest to Australia or Australia's security He argues for an end to strategic dependence and for the timely establishment of a truly independent Australia

no end in sight to an air advisory mission of uncertain long term value
