society in the 21st century and beyond **Hitler** Joachim Fest,2013-02-01 The best single volume available on the torturous life and savage reign of Adolf Hitler Time A bestseller in its original German edition and subsequently translated into more than a dozen languages Joachim Fest's Hitler has become a classic portrait of a man a nation and an era Fest tells and interprets the extraordinary story of a man's and nation's rise from impotence to absolute power as Germany and Hitler from shared premises entered into their covenant He shows Hitler exploiting the resentments of the shaken post World War I social order and seeing through all that was hollow behind the appearance of power at home and abroad Fest reveals the singularly penetrating politician hypnotizing Germans and outsiders alike with the scope of his projects and the theatricality of their presentation Perhaps most importantly he also brilliantly uncovers the destructive personality that aimed for and achieved devastation on an unprecedented scale As history and biography this is a towering achievement a compelling story told in a way only a German could tell it dispassionately but from the inside Time Hitler's Secret Backers Sydney Warburg, The book you are about to read is one of the most extraordinary historical documents of the 20th century Where did Hitler get the funds and the backing to achieve power in 1933 Germany Did these funds come only from prominent German bankers and industrialists or did funds also come from American bankers and industrialists American bankers supplied Adolf Hitler with millions of dollars to help build up his Nazi party Warburg was a joint owner of the New York bank Kuhn Loeb he describes three conversations he held with Hitler at the request of American financiers This book was originally published in Holland in 1933 shortly before Warburg's death The Hitler Virus Peter Wyden,2012-02 More than a half century after Adolf Hitler committed suicide in a Berlin bunker the dictator's legacy and influence lives on precisely as he predicted before putting the gun to his head In the spring of 1945 as it became increasingly clear that the Nazi cause was lost Hitler dictated his final political testament to his secretary Out of my personal commitment the seed will grow again one day one way or another for a radiant rebirth of the National Socialist movement in a truly united nation The next day Hitler ended the Nazi regime by committing suicide Respected author and publisher Peter Wyden who himself escaped the Nazis has returned to Germany many times over the years and to his dismay he has found evidence that Hitler's last testament was startlingly accurate Though the Nazi cause had been exposed and vilified worldwide it is still clandestinely cherished by many In the process of documenting manifestations of Hitler's far reaching influence which he termed the Hitler virus Wyden discovered that its carriers were not merely to be found among the older generation but an alarming number of outbreaks of the virus are among the young adults who find in Hitler a moral and spiritual guide aided and abetted by a new breed of right wing academics who make the rewriting of history their mission and a new generation of politicians whose agendas are frighteningly close to those of young Hitler In these often chilling pages Wyden recounts the results of his research and points out that the Hitler virus is indeed still a cause for concern worldwide Hitler's Money Machine Christopher Broschell,2014-12-08 What happens when companies put profit ahead of ethics Sure some companies sold guns and tanks to

Mueller, 2022-04-21 From the emergence of department stores in the late 19th century to the financial disasters of the years following the end of World War I the history of large scale retailing in Germany was dominated by a pioneering generation of German Jewish entrepreneurs who found fortune and influence only to have their livelihoods taken by Hitler and the Nazis in the 1930s Drawing on a range of archival sources and private collections *The Kaiser Hitler and the Jewish Department Store* reveals how contrary to Nazi claims Jewish owned department stores were decent employers popular with customers and well integrated into the economy In fact such institutions were so integral to German society that when Hitler came to power in 1933 the Nazis were forced to abandon their pledge to abolish them As this revelatory history argues the end of the Jewish run store cannot solely be attributed to the rise of antisemitism it was also the consequence of financial mismanagement and the indifference of the German people John F Mueller reveals the German Jewish department store as a powerful force in society and politics as well as a leader in architecture and design His book challenges common assumptions about the relationship between consumer culture the German Jewish business community and the rise of Nazism providing fresh insights into the social history of modern Germany *Hitler's Nest of Vipers* Nigel West, 2022-10-21 presents an excellent and concise narrative of the

Abwehr's global intelligence network West draws from hundreds of firsthand debriefing and summary reports including disclosed sources not previously available to scholars. American Intelligence Journal Modern historians have consistently condemned the Abwehr, Germany's military intelligence service and its SS equivalent the Sicherheitsdienst (SD) as incompetent and even corrupt organizations. However, newly declassified MI5, CIA and US Counterintelligence Corps files shed a very different light on the structure, control and capabilities of the German intelligence machine in Europe, South America, the Mediterranean and the Middle East. It is usually stated that under Admiral Canaris the Abwehr neglected its main functions, its attention being focused more on trying to bring down Hitler. Yet Canaris greatly expanded the Abwehr from 150 personnel into a vast world-wide organisation which achieved many notable successes against the Allies. Equally the SD's tentacles spread across the Occupied territories as the German forces invaded country after country across Europe. In this in-depth study of the Abwehr's rise to power, 1935 to 1943, its activities in Russia, the Baltic States, Ukraine, Japan, China, Manchukuo and Mongolia are examined as well as those in Thailand, French Indo-China, the Dutch East Indies, the Philippines, Iran, Turkey, Afghanistan and the Arab nations. In this period the Abwehr built a complex network of individual agents with transmitters operating from commercial, diplomatic and consular premises. Before and in the early stages of the war it later became apparent the Abwehr was controlling a number of agents in Britain. Indeed it was only after the war that the scale of the Abwehr's activities became known, the organisation having of around 20,000 members. For the first time the Abwehr's development and the true extent of its operations have been laid bare through official files and even of restored documents previously redacted. The long list of operations and activities of the Abwehr around the world includes the efforts of an agent in the USA who was arrested after a bizarre attempt to obtain a quantity of blank American passports by impersonating a senior State Department official, Edward Weston, an Under Secretary of State. Also former US Marine Kurt Jahnke who was recruited to collect information about the American munitions production and send it on to Germany. These are just two of the numerous and absorbing accounts in this all-embracing study.
