Handbook on Teaching Social Issues published in 1996 During the last few years social studies teachers have been confronted by student inquiries on a plethora of historical and contemporary issues that implores for the implementation of an interdisciplinary approach to the teaching of anthropology economics geography government history sociology and psychology in order for students to make sense of the world around them and develop their own voices This demands a student centered focus in the classroom where problematic questions must be addressed and investigated in depth in order to increase social understanding and active participation toward social progress This volume provides crucial upgrades to the original handbook including a greater emphasis on teaching issues in the elementary grades the inclusion of issues pertaining to human rights genocide and sustainability to be addressed in the secondary grades and addressing issues related to disabilities Mark Previte Associate Professor of Secondary Education University of Pittsburgh Johnstown Chair NCSS Issues Centered Education Community **Teachers' Journal** ,1961 **Human Rights in Russia** Jonathan Weiler,2004 Weiler argues that the processes associated with political and economic reform have in important instances diminished human rights in post Soviet Russia **Military Training and Children in Armed Conflict** Jenny Kuper,2005-01-01 **Drugs, Oil, and War** Peter Dale Scott,2004-01-01 Peter Dale Scott s brilliantly researched tour de force illuminates the underlying forces that drive U S global policy from Vietnam to Colombia and now to Afghanistan and Iraq He brings to light the intertwined patterns of drugs oil politics and intelligence networks that have been so central to the larger workings of U S intervention and escalation in Third World countries through alliances with drug trafficking proxies This strategy was originally developed in the late 1940s to contain communist China it has since been used to secure control over foreign petroleum resources The result has been a staggering increase in the global drug traffic and the mafias associated with it_a problem that will worsen until there is a change in policy Scott argues that covert operations almost always outlast the specific purpose for which they were designed Instead they grow and become part of a hostile constellation of forces The author terms this phenomenon parapolitics_the exercise of power by covert means_which tends to metastasize into deep politics_the interplay of unacknowledged forces that spin out of the control of the original policy initiators We must recognize that U S influence is grounded not just in military and economic superiority Scott contends but also in so called soft power We need a soft politics of persuasion and nonviolence especially as America is embroiled in yet another disastrous intervention this time in Iraq *The Latest and Best of TESS* ,1991 [A Micro-Sociology of Violence](#) Jutta Bakonyi,Berit Bliesemann de Guevara,2014-06-11 This book aims at a deeper understanding of social processes dynamics and institutions shaping collective violence It argues that violence is a social practice that adheres to social logics and in its collective form appears as recurrent patterns In search of characteristics mechanisms and logics of violence contributions deliver ethnographic descriptions of different forms of collective violence and contextualize these phenomena within broader spatial and temporal structures The studies show that collective violence at least if it is sustained over a

certain period of time aims at organization and therefore develops constitutive and integrative mechanisms Practices of social mobilization of people and economic resources their integration in functional structures and the justification or legitimization of these structures sooner or later lead to the establishment of new forms of violent orders be it at the margins of or beyond the state Cases discussed include riots in Gujarat India mass violence in Somalia social orders of violence and non violence in Colombia humanitarian camps in Uganda trophy taking in North America and violent livestock raiding in Kenya This book was originally published as a special issue of Civil Wars *Man Up* Cynthia Miller-Idriss, 2025-09-16 The revelatory and urgent story of how an explosion of misogyny is driving a surge of mass and far right violence throughout the West from an internationally recognized extremism expert and media commentator What two things do most mass shooters terrorists or violent extremists have in common Most of us know the first they are almost always men or boys But the second They are almost always virulent misogynists homophobes or transphobes even if they are also motivated by racism antisemitism or xenophobia The antigovernment militiamen charged with plotting to kidnap and execute Michigan governor Gretchen Whitmer used language saturated with misogyny with one telling an FBI informant Just grab the bitch The men who killed scores at Virginia Tech the Pulse nightclub and a Maryland newsroom all had prior reports of stalking domestic violence or harassment of women And in dozens of other incidents from North America to Norway to New Zealand an increasing number of misogynist incel involuntary celibate and male supremacist attackers have explicitly targeted and killed women blaming feminism or sexual frustration with women as motivation for their attacks Yet despite all evidence the bright red thread of misogyny running through these attacks is barely acknowledged by the media or even experts and this failing leaves us powerless to stop the violence In *Man Up* Cynthia Miller Idriss a leading expert on extremism addresses this crucial oversight head on revealing how an epidemic of misogyny both online and off and a patriarchal backlash are driving an exponential rise in mass and far right violence She also offers essential strategies that all of us including parents teachers and counselors can use to fight the rising tide of violence beginning with recognizing the misogyny that pervades our everyday lives *The Saturday Review of Politics, Literature, Science, Art, and Finance*, 1923 **Human Rights**

Discourse in a Global Network Lena Khor, 2016-05-13 In her innovative study of human rights discourse Lena Khor takes up the prevailing concern by scholars who charge that the globalization of human rights discourse is becoming yet another form of cultural legal and political imperialism imposed from above by an international human rights regime based in the Global North To counter these charges she argues for a paradigmatic shift away from human rights as a hegemonic immutable and ill defined entity toward one that recognizes human rights as a social construct comprised of language and of language use She proposes a new theoretical framework based on a global discourse network of human rights supporting her model with case studies that examine the words and actions of witnesses to genocide Paul Rusesabagina and humanitarian organizations Doctors Without Borders She also analyzes the language of texts such as Michael Ondaatje's *Anil's Ghost* Khor

s idea of a globally networked structure of human rights discourse enables actors textual and human who tap into or are linked into this rapidly globalizing system of networks to increase their power as speaking subjects and in so doing to influence the range of acceptable meanings and practices of human rights in the cultural sphere Khor s book is a unique and important contribution to the study of human rights in the humanities that revitalizes viable notions of agency and liberatory network power in fields that have been dominated by negative visions of human capacity and moral action CUSTOM: Grand Canyon University SWK 540 Human Behavior in the Social Environment II: Adolescence to Late Adulthood Custom Electronic Edition Elizabeth D.
