

Mum: Hi, Grant. How was your day at school?

Grant: Oh hi, Mum. This week, it's Environment Week at school so today we talked about using paper bags.

Mum: Well, I know they're much better for the environment than plastic bags. That's why I stopped using plastic ones.

Grant: Well, that's not what we heard today. Paper bags use more energy than plastic ones and they pollute more.

Mum: Really? How come?

Grant: According to my teacher, it takes four times more energy to produce a paper bag than to produce a plastic one.

Mum: I didn't know that. I'm really surprised.

Grant: Also, paper is made from trees and that means forests are losing lots of trees. And that means some animals won't have trees to live in. And there's more bad news about paper.

Mum: More bad news? What else did you hear?

Grant: Well, making paper uses thousands of gallons of clean water. There are communities in the world that haven't got enough water to drink.

Mum: Well, what about recycling paper? That's something positive for the environment.

Grant: Yes, but people don't recycle as much as they should. Most of our litter goes into the ground. Both plastic and paper stay there for thousands of years and pollute the ground.

Mum: So was there any positive news today?

Grant: Well, the best solution is to use cloth bags. Then you can use the same one over and over again.

Mum: OK. I'll buy some cloth bags next time I go shopping.

Grant: Great!
