**Design Upgrades** The Nikon Z6 II is noticeably more compact than its before and it sports a new style that is both sleeker and more up to date With a magnesium frame and carbon fiber reinforcements it's surprisingly lightweight for how sturdy it is The camera's layout keeps controls within easy reach making it a breeze to operate For instance the camera's menus may be accessed not by buttons on the rear but rather via an LCD on the top of the device and a corresponding eyelet next to each lens attachment What you will be getting Nikon's newest addition to their mirrorless camera series the Z6 II seeks to build upon the success of the original Nikon Z6 The Z6 II is going to be well liked among photographers with its upgraded autofocus system dual EXPEED 6 CPU and capacity to capture 4K video In addition to the increased low light capabilities and longer battery life the Z6 II's other notable features include two memory card slots for more storage options It has some of the most advanced capabilities of any camera in its price range I am curious as to what features this new powerhouse from Nikon will provide With a 45.7 megapixel full frame sensor robust built-in Wi-Fi and a more simplified menu system the Z6 II makes Nikon's cutting edge photographic technology accessible to a wider audience The camera has a 1/32000 second shutter speed and a refined 51 point Autofocus system making it great for capturing fast moving scenes Whether you're looking for more control while filming fast paced action or capturing slower action at a distance the Z6 II is

the first Nikon camera to provide 4K UHD video recording at 30 fps in addition to full HD 1080p video at 60 fps Nikon's new Z6 II will be available in the company's distinctive black color scheme and is compatible with all of Nikon's existing lenses including NIKKOR glass
