*Expanding Classics* Arlene Holmes-Henderson, 2023-04-18 This volume explores innovative ways of expanding classical languages and cultures to educational and museum audiences It shows that classical subjects have an important role to play within society and can enrich individuals lives in many different and perhaps surprising ways Chapters present projects covering literacy and engagement with reading empowering students to understand and use new types of vocabulary discovering the personal relevance of ancient history and the resonance of ancient material culture and stories Contributors demonstrate that classical subjects can be taught cost effectively and inclusively by non specialist teachers and in non traditional settings In their various ways they highlight the need to rethink the role of Classics in twenty first century classrooms and communities Recommendations are made for further development including ways to improve research policy and practice in the field of Classics education *Expanding Classics* presents an important series of case studies on classical learning of interest to museum educators teacher trainers school leaders and curriculum designers as well as those teaching in primary secondary and further education settings in the UK and worldwide

*What Should Schools Teach?* Alka Sehgal Cuthbert ,Alex Standis, 2021-01-07 The design of school curriculums involves deep thought about the nature of knowledge and its value to learners and society It is a serious responsibility that raises a number of questions What is knowledge for What knowledge is important for children to learn How do we decide what knowledge matters in each school subject And how far should the knowledge we teach in school be related to academic disciplinary knowledge These and many other questions are taken up in *What Should Schools Teach* The blurring of distinctions between pedagogy and curriculum and between experience and knowledge has served up a confusing message for teachers about the part that each plays in the education of children Schools teach through subjects but there is little consensus about what constitutes a subject and what they are for This book aims to dispel confusion through a robust rationale for what schools should teach that offers key understanding to teachers of the relationship between knowledge what to teach and their own pedagogy how to teach and how both need to be informed by values of intellectual freedom and autonomy This second edition includes new chapters on Chemistry Drama Music and Religious Education and an updated chapter on Biology A revised introduction reflects on emerging discourse around decolonizing the curriculum and on the relationship between the knowledge that children encounter at school and in their homes

*The Colonial Past in History Textbooks* Karel Van Nieuwenhuysen, Joaquim Pires Valentim, 2018-05-01 This book examines the evolving representations of the colonial past from the mid 19th century up to decolonization in the 1960s and 70s the so called era of Modern Imperialism in post war history textbooks from across the world The aim of the book is to examine the evolving outlook of colonial representations in history education and the underpinning explanations for the

specific outlook in different former colonizer and colonized countries to be found in collective memory popular historical culture social representations identity building processes and the state of historical knowledge within academia The approach of the book is novel and innovative in different ways First of all given the complexity of the research an original interdisciplinary approach has been implemented which brings together historians history educators and social psychologists to examine representations of colonialism in history education in different countries around the world while drawing on different theoretical frameworks Secondly given the interest in the interplay between collective memory popular historical culture social representations and the state of historical knowledge within academia a diachronic approach is implemented examining the evolving representations of the colonial past and connecting them to developments within society at large and academia This will allow for a deeper understanding of the processes under examination Thirdly studies from various corners of the world are included in the book More specifically the project includes research from three categories of countries former colonizer countries including England Spain Italy France Portugal and Belgium countries having been both colonized and colonizer Chile and former colonized countries including Zimbabwe Malta and Mozambique This selection allows pairing up the countries under review as former colonizing colonized ones for instance Portugal Mozambique United Kingdom Malta allowing for an in depth comparison between the countries involved Before reaching the research core three introductory chapters outline three general issues The book starts with addressing the different approaches and epistemological underpinnings history and social psychology as academic disciplines hold In a second chapter evolutions within international academic colonial historiography are analyzed with a special focus on the recent development of New Imperial History A third chapter analyses history textbooks as cultural tools and political means of transmitting historical knowledge and representations across generations The next ten chapters form the core of the book in which evolving representations of colonial history from mid 19th century until decolonization in the 1960s and 1970s are examined explained and reflected upon for the above mentioned countries This is done through a history textbook analysis in a diachronic perspective For some countries the analysis dates back to textbooks published after the Second World War for other countries the focus will be more limited in time The research presented is done by historians and history educators as well as by social psychologists In a concluding chapter an overall overview is presented in which similarities and differences throughout the case studies are identified interpreted and reflected upon
