

THE WEATHER IN ENGLAND

The English say "Other countries have a climate, in England we have weather". It happens because the weather changes more often than in other countries. British winters are mild and springs are cool because of the winds that blow from the Atlantic Ocean. They blow 2 days out of every 3.

In spring sunshine and showers follow each other so often during the day that an umbrella or a raincoat is absolutely necessary in England. The weather changes so frequently that it is difficult to forecast. It is not unusual for people to complain (жаловаться) that the weathermen were wrong.

The weather in spring is generally mild but sometimes the days are really fresh. Spring is the season when nature awakens from its long winter sleep: the temperature grows, the sky becomes blue, and the sun grows warmer. Everything is full of new life again. The days grow longer and warmer; the ground gets covered with green grass.

Summer is the hottest season in England. The sunrays become hot, the days are long, and the nights are short and warm. It's time for holidays, when people go to the seaside for sunbathing and swimming. It usually gets hot in July. The summer nights are short, but they are wonderful.

As for autumn it isn't so nice. It's a season of winds and beautiful sunsets. The leaves turn yellow and reddish and fall to the ground and the birds migrate to warm countries. In autumn the days become shorter. A spell (короткий промежуток времени) of sunny weather in September is called Indian summer or "Golden Autumn". In England September and October are warm and dry, but November is the foggiest month. Late autumn is generally an unpleasant season. Everything begins to take a different colour. The trees look bare. The sky is overcast with low clouds. Everything looks gloomy (мрачный).

In winter in England they can hardly forecast their weather. Sometimes it rains and sometimes it snows. In England it isn't so cold in winter as in our country and they don't get so much snow as we get here. The rivers in England never freeze, that's why children there go skating very seldom. When there are 8 degrees of frost in England everyone complains of hazards.

Minority Pupils' Schooling Experiences Jatinder Kang, 2023-08-25 Exploring the British Indian model minority discourse, this book is the first empirical and theoretical examination of high-achieving British Indian students' lived experiences of schooling, education, teaching and learning. Drawing from narratively styled qualitative interviews with Indian students, the chapters explore Bourdieu's theory of practice and the concepts of capital, symbolic violence and habitus to analyse what the contextual and empirical data reveals about the role of class background in the production or reproduction of social class. Providing thought-provoking insights into the role the English secondary education system plays in exacerbating the label of the Indian model student, the book critically examines how this label seems to at once praise, patronise and homogenise a heterogeneous group of people who share a particular heritage. Ultimately, the book contextualises Western education and the ways in which minority ethnic students and various groups defined as 'Other' relate to and connect with education. The book will be of great interest to researchers and postgraduate students in the fields of the sociology of race and ethnicity in education, the sociology of higher education and the marketisation of education. *Horrrifying Children* Lauren Stephenson, Robert Edgar, John Marland, 2024-03-07

Horrrifying Children examines weird and eerie children's television and literature via critical analysis, memoir and autoethnography. There has been an explosion of interest in the impact of children's television and literature of the late twentieth century. In particular, the 1970s, 80s and 90s are seen as decades that shaped a great deal of the contemporary cultural landscape. Television of this period dominated the world of childhood entertainment, drawing freely upon literature and popular culture like the *Garbage Pail Kids* and *Stranger Things*, and much of it continues to resonate powerfully with the generation of cultural producers: fiction writers, screenwriters, directors, musicians and artists that grew up watching the weird, the eerie and the horrific, the essence of 21st-century Hauntology. In these terms, this book is not about children's television as it exists now but rather as it features as a facet of memory in the 21st century. As such, it is the legacy of these television programmes that is at the core of *Horrrifying Children*. The haunting of adults by what we have seen on the screen is crucial to the study. This collection directly addresses that which scared us in the past, inasmuch as there is a correlation between individual and collective cultural memory, with some chapters providing an opportunity for situating existing explorations and understandings of Gothic and Horror TV within a hauntological and experiential
