Distributed Leadership Alma Harris, 2009-03-17 Alma Harris The era of school leadership is currently preoccupied with the idea of distributed leadership Few ideas it seems have provoked as much attention debate and controversy Whatever your position on distributed leadership and you cannot fail to have one it is irrefutable that distributed leadership has become the leadership idea of the moment Yet it is an idea that can be traced back as far as the mid 20s and possibly earlier So why the interest Part of the answer can be found in a move away from theorizing and empirical enquiry focused on the single leader This shift has undoubtedly been fuelled by structural changes within schools and across school systems that have resulted in alternative models or forms of leadership practice Evidence highlights how those occupying formal leadership positions are increasingly recognizing the limitations of existing structural arrangements to secure organizational growth and transformation Fullan et al 2007 Harris et al 2008 Chapman et al 2008 As a consequence many heads and principals are actively restructuring realigning and redesigning leadership practice in their school Harris 2008 While the terminology to describe such changes varies the core principle is one of extending or sharing leadership practice While scholars have long argued for the need to move beyond those at the top of organizations in order to examine leadership Barnard 1968 Katz and Kahn 1966 until relatively recently much of the school leadership literature has tended to focus upon the head or the principal

Challenging the Qualitative-Quantitative Divide Barry Cooper, Judith Glaesser, Roger Gomm, Martyn

Hammersley, 2012-03-08 This book challenges the divide between qualitative and quantitative approaches that is now institutionalized within social science. Rather than suggesting the mixing of methods, *Challenging the Qualitative Quantitative Divide* provides a thorough interrogation of the arguments and practices characteristic of both sides of the divide, focusing on how well they address the common problems that all social research faces, particularly as regards causal analysis. The authors identify some fundamental weaknesses in both quantitative and qualitative approaches and explore whether case-focused analysis, for instance in the form of Qualitative Comparative Analysis, Analytic Induction, Grounded Theorising or Cluster Analysis, can bridge the gap between the two sides. *Computer Aided Verification* Ruzica Piskac, Zvonimir

Rakamarić, 2025-07-22 This open access 4 volume set constitutes the proceedings of the 37th International Conference on Computer Aided Verification CAV 2025 held in Zagreb, Croatia, in July 23-25, 2025. The 51 regular papers presented together with 24 tool papers, 4 case study papers in these proceedings were carefully reviewed and selected from 305 submissions. The accepted papers cover a wide spectrum of topics from theoretical results to applications of formal methods. These papers apply or extend formal methods to a wide range of domains such as concurrency, machine learning, and neural networks, quantum systems, as well as hybrid and stochastic systems. **College Board College Handbook 2007** College Entrance Examination Board, 2006-06 The easy way to find and compare schools. About The Boys Lynn Maddern, 2014-07-18 At a time of unprecedented international immigration, seven Somali and African Caribbean boys are working their way through primary and secondary education. It is inner-city Bristol, and like large cities across the UK, local communities and schools are receiving many thousands of Somali refugees on their doorstep. As new priorities are swiftly established in the staff room, a new pecking order develops in the playground. In an attempt to improve relations between rival groups, seven boys are referred into a Year 6 social skills group run by the author. Five years later, she meets the boys again, and at home, with their mothers, grandmothers, and siblings, hears stories of exclusion and disappointment, success and ambition as they progress towards their GCSE examinations. Drawn from the author's doctoral research, this engaging and emotionally honest book offers gripping stories from young people who live at the leading edge of demographic change, a critical discourse on the underachievement of Black and Somali children, a detailed account of the use of a performance narrative methodology, and an exploration of the author's positioning as a White researcher working with Black participants. *About the Boys* is vital reading for those interested in the attainment of Black and Somali children and in schools and communities coping with demographic change. It is of particular relevance to students and researchers of narrative inquiry. **Able, Gifted and Talented Underachievers** Diane Montgomery, 2009-04-20 A practical guide to identifying gifted underachievers and enabling them to fulfil their potential, raising whole school standards.
