Lennard, Pierre Margot, Milutin Stoilovic, 2017-12-19 Since its publication the first edition of *Fingerprints and Other Ridge Skin Impressions* has become a classic in the field. This second edition is completely updated, focusing on the latest technology and techniques including current detection procedures, applicable processing and analysis methods, all while incorporating the expansive growth of literature on the topic since the publication of the original edition. Forensic science has been challenged in recent years as a result of errors, courts and other scientists contesting verdicts and changes of a fundamental nature related to previous claims of infallibility and absolute individualization. As such, these factors represent a fundamental change in the way training, identifying and reporting should be conducted. This book addresses these questions with a clear viewpoint as to where the profession and ridge skin identification in particular must go and what efforts and research will help develop the field over the next several years. The second edition introduces several new topics including Discussion of ACE V and research results from ACE V studies, Computerized marking systems to help examiners.

produce reports New probabilistic models and decision theories about ridge skin evidence interpretation introducing Bayesnet tools Fundamental understanding of ridge mark detection techniques with the introduction of new aspects such as nanotechnology immunology and hyperspectral imaging Overview of reagent preparation and application Chapters cover all aspects of the subject including the formation of friction ridges on the skin the deposition of latent marks ridge skin mark identification the detection and enhancement of such marks as well the recording of fingerprint evidence The book serves as an essential reference for practitioners working in the field of fingerprint detection and identification as well as legal and police professionals and anyone studying forensic science with a view to understanding current thoughts and challenges in dactyloscopy *AGU 2004 Joint Assembly* American Geophysical Union.
