Mathematical and Statistics Anxiety: Educational, Social, Developmental and Cognitive Perspectives Kinga Morsanyi,Irene Cristina Mammarella,Denes Szűcs,Carlo Tomasetto,Caterina Primi,Erin Anne Maloney,2017-01-19 Mathematical anxiety is a feeling of tension apprehension or fear which arises when a person is faced with mathematical content The negative consequences of mathematical anxiety are well documented Students with high levels of mathematical anxiety might underperform in important test situations they tend to hold negative attitudes towards mathematics and they are likely to opt out of elective mathematics courses which also affects their career opportunities Although at the university level many students do not continue to study mathematics social science students are confronted with the fact that their disciplines involve learning about statistics another potential source of anxiety for students who are uncomfortable with dealing with numerical content Research on mathematical anxiety is a truly interdisciplinary field with contributions from educational developmental cognitive social and neuroscience researchers The

current collection of papers demonstrates the diversity of the field offering both new empirical contributions and reviews of existing studies The contributors also outline future directions for this line of research *Yesterday, Today, and Tomorrow*
Roslyn Arlin Mickelson, Stephen Samuel Smith, Amy Hawn Nelson, 2017-11-14 *Yesterday Today and Tomorrow* provides a compelling analysis of the forces and choices that have shaped the trend toward the resegregation of public schools By assembling a wide range of contributors historians sociologists economists and education scholars the editors provide a comprehensive view of a community s experience with desegregation and economic development Here we see resegregation through the lens of Charlotte North Carolina once a national model of successful desegregation and home of the landmark Swann desegregation case which gave rise to school busing This book recounts the last forty years of Charlotte s desegregation and resegregation putting education reform in political and economic context Within a decade of the Swann case the district had developed one of the nation s most successful desegregation plans measured by racial balance and improved academic outcomes for both black and white students However beginning in the 1990s this plan was gradually dismantled Today the level of resegregation in Charlotte has almost returned to what it was prior to 1971 At the core of Charlotte s story is the relationship between social structure and human agency with an emphasis on how yesterday s decisions and actions define today s choices **Library of Congress Subject Headings** Library of Congress, 2013
