May 2015 Geography Memo Grade 1:

The Report: Trinidad & Tobago 2016 Oxford Business Group, 2016-08-07 In its March 2016 Economic Bulletin the Central Bank of T T stated that after negative growth of 1% in 2014 T T s economy contracted by a further 2.1% in 2015 as per provisional data. Meanwhile government revenue fell by 6.2% in FY 2014/15 with a 35% decline in energy collections outstripping increases in non energy and capital receipts. Nonetheless the recessionary environment is not without opportunity for the country s new leadership. As the Government of Keith Rowley which assumed office in September 2015 works to bring government spending under control policies aimed at economic diversification could be set to gain further traction. Moreover given that T T has a safety buffer in the form of strong foreign currency reserves and a sovereign wealth fund there is a relatively room to manoeuvre.

From Head Shops to Whole Foods Joshua C. Davis, 2017-08-08 In the 1960s and 70s a diverse range of storefronts including head shops African American bookstores feminist businesses and organic grocers brought the work of the New Left Black Power feminism environmentalism and other movements into the marketplace. Through shared ownership limited growth and democratic workplaces these activist entrepreneurs offered alternatives to conventional profit driven corporate business models. By the middle of the 1970s thousands of these enterprises operated across the United States but only a handful survive today. Some such as Whole Foods Market have abandoned their quest for collective political change in favor of maximizing profits. Vividly portraying the struggles successes and sacrifices of these unlikely entrepreneurs *From Head Shops to Whole Foods* writes a new history of social movements and capitalism by showing how activists embraced small businesses in a way few historians have considered. The book challenges the widespread but mistaken idea that activism and political dissent are inherently antithetical to participation in the marketplace. Joshua Clark Davis uncovers the historical roots of contemporary interest in ethical consumption social enterprise buying local and mission driven business while also showing how today s companies have adopted the language but not often the mission of liberation and social change.

Geographical Knowledge Construction and Production Archie K. Deen, 2015-09-02 *Geographical Knowledge Construction and Production* Teacher and Student Perspectives is a readable and illuminating account of three high school classrooms in suburban Atlanta Georgia. It challenges the narrow focus of the Advanced Placement AP programme as a tool for admission into colleges and universities in the United States. The research provides insight into the College Board s AP programme and argues for teaching and learning that is transformative and geared toward equipping students with the skills and knowledge necessary to confront the challenges of the 21st century. In particular it advocates for geographic education that is anchored in the structure of the subject teasing wherever possible the contradictions and tensions embedded in the complexities of facts relating to people and places. This book is essential reading for professors and students of education teachers and students of AP courses parents administrators and state and federal agencies vested in the AP programme.
