Leaders in Critical Pedagogy Brad J Porfilio, Derek R Ford, 2015-12-01 Critical pedagogy has variously inspired mobilized troubled and frustrated teachers activists and educational scholars for several decades now Since its inception the field has been animated by internal antagonism and conflict and this reality has simultaneously spread the influence of the field in and out of education and seriously challenged its status as an integral body of work The various debates that have categorized critical pedagogy have also made it difficult for younger scholars to enter into the literature This is the first book to survey critical pedagogy through first hand accounts of its established and emerging leaders While the book does indeed provide a historical exploration and documentation of the development of critical pedagogy as a contested and dynamic educational intervention as well as analyses of that development and directions toward possible futures it is also intended to provide an accessible and comprehensive entry point for a new generation of activists organizers scholars and educators who place questions of pedagogy and social justice at the heart of their thinking and doing Martin Heidegger once said that

Aristotle's life could be summarized in one short sentence: He was born, he thought he died. Porfili and Ford's brilliantly curated compilation of autobiographical sketches of leaders in critical pedagogy resolutely rejects Heidegger's reductive thesis reminding us all that theory is grounded in the historical specificities and material contradictions of life. For those well acquainted with critical pedagogy, these theoretical memoirs grant us a unique and sometimes surprisingly intimate glimpse into the lives behind the words we know so well. But most importantly, the format of the book is an educational intervention into how critical pedagogy can be taught. While it is often the case that students find critical pedagogy dense, inaccessible, and seemingly detached from the everyday concerns of teachers.

Everything Is Going To Be OK (Until It's Not) Georgia Garvey, 2023. Hint: you can't. The works cast of characters include leprechauns and Elves on the Shelves and a pet parrot that only communicates through Portuguese curse words.

The Publishers Weekly, 1913 **Makin' Paper**, 1926 Think Tank Bob Cohn, 2011-05-01. Dr. Perry Annister, a Washington Think Tank wunderkind, partner bidding on the President's 2050 Project, delivers a speech at Harvard recommending that elected Government Officials should have Government Sciences Degrees. Harvard then Stanford publishes the speech, hoping to add profitable courses to their curricula. The University and Presidential endorsements unleash stormy responses, foreign and domestic, from politicians to oil and drug cartels that terrorize Perry to stop him from disrupting their operations. Hunted and pursued by Mafia and covert Intelligence operatives, Perry and his beautiful PhD fiancée Jackie desperately run for their lives. Traumatized and wounded, they frantically fight back and escape several times using brainpower, athleticism, and unseen help to outwit merciless killers. Realizing their danger, the President appoints NSA Secret Service Agents to protect the beleaguered pair as they dodge car bombs and bullets from Las Vegas to the White House until the President himself unveils a surprising, life-saving solution.
