Donnor, Adrienne Dixon, 2013-06-07 Access to a quality education remains the primary mechanism for improving one's life chances in the United States and for children of color a good education is particularly linked to their individual and collective well being Despite the popular perception that America is in a post racial epoch opportunities to access quality learning environments and human development resources remain determined according to race class gender and ability Taking a more nuanced approach to race and the resegregation of the American school system this volume examines how and why the education quality for the majority of students of color in America remains fundamentally unequal **Handbook of Urban Educational Leadership** Muhammad Khalifa, Noelle Witherspoon Arnold, PhD, associate professor, Educational Leadership and Policy Analysis, University of Missouri-Columbia, Dr. Azadeh F.
