Language Diversity, School Learning, and Closing Achievement Gaps National Research Council, Division of Behavioral and Social Sciences and Education, Center for Education, Committee on the Role of Language in School Learning: Implications for Closing the Achievement Gap, 2010-08-26 The Workshop on the Role of Language in School Learning Implications for Closing the Achievement Gap was held to explore three questions What is known about the conditions that affect language development What are the effects of early language development on school achievement What instructional approaches help students meet school demands for language and reading comprehension Of particular interest was the degree to which group differences in school achievement might be attributed to language differences and whether language related instruction might help to close gaps in achievement by helping students cope with language intensive subject matter especially after the 3rd grade The workshop provided a forum for researchers and practitioners to review and discuss relevant research findings from varied perspectives The disciplines and professions represented included language development child development cognitive psychology linguistics reading educationally disadvantaged student populations literacy in content areas math science social studies and teacher education The aim of the meeting was not to reach consensus or provide recommendations but rather to offer expert insight into the issues that surround the study of language academic learning and achievement gaps and to gather varied viewpoints on what available research findings might imply for future research and practice This book summarizes and synthesizes two days of workshop presentations and discussion

The Oxford Handbook of Offshoring and Global Employment Ashok Bardhan, Dwight M. Jaffee, Cynthia A. Kroll, 2013-04-09 The Oxford Handbook of Offshoring and Global Employment deals with a key issue of our time How do globalization economic growth and technological developments interact to impact employment The book brings together eminent authors from a wide range of countries around the world drawing on their diverse academic and policymaking backgrounds and

specific national or regional settings to assess how global economic changes have affected employment opportunities. The book is unique in a number of ways It has a global reach presenting analyses and viewpoints from both developed and developing countries from all continents its timing and context is particularly instructive since most papers are located in the aftermath of the global financial crisis and it addresses a wide range of questions How do different types of offshoring and global linkages impact employment How is the skill mix of the labor force impacted by globalization How do institutional structures and regulations influence the outcome of globalization in developed and developing countries Individual chapters analyze how the impact of global linkages on national economies is mediated through a number of structural aspects of the economy its institutional and industrial structure its resource base its predominant firm type its comparative advantage and its regulatory practices. The chapters in the book cover both manufacturing and services sectors and many chapters also address policy issues regarding innovation and job creation 10 Mindframes for Visible Learning John Hattie, Klaus Zierer, 2024-11-14 This new and updated edition of 10 Mindframes for Visible Learning revisits the ten behaviours or mindframes that teachers need to adopt in order to maximize student success These powerful mindframes which should underpin every action in schools are founded on the principle that teachers are evaluators change agents learning experts and seekers of feedback who are constantly engaged with dialogue and challenge The ten mindframes include thinking of and evaluating your impact on students learning the importance of assessment and feedback to inform teachers working collaboratively and the sense of community the notion that learning needs to be challenging and errors seen as opportunities to learn engaging in dialogue and the correct balance between talking and listening conveying the success criteria to learners building positive relationships This new edition now uses the much larger meta analysis dataset over 2 100 meta analyses rather than 900 and incorporates new research particularly with reference to digital technologies evaluative thinking and the lessons learned from large scale school implementation of visible learning Furthermore thanks to Visible Learning this book includes concrete scientifically accompanied processes Specifically this means updated data expanded chapters to include factors that clarify the core message of the mindframes and explanations of the concrete examples that are research proven to be most effective This updated essential guide which includes questionnaires scenarios checklists and exercises will show any school exactly how to implement Hattie's mindframes to maximize student success The Complete Directory for People with Learning Disabilities ,1993 Rethinking Pension Reform Franco Modigliani, Arun Muralidhar, 2004-08-02 This book is unique as it presents an academic and a practical aspect on managing pension funds to clarify the global debate on social security The authors establish the basic choices in designating any system to help policy makers develop the system that achieves their many objectives The success of reforms depends on financial innovation to mitigate key risks and some innovations are discussed which also demonstrates how pension reform choices affect the achievement of retirement objectives Finally the authors examine some proposed hybrid options to show how the beneficial

features of these hybrids can be captured through good design in a single fund
