

4 Findings

Table 1 outlines the obtained ranking. The outlets are listed based on h-index; in cases of ties, g-index and hc-index were considered. Consistent with previous journal ranking investigations (Gillenson and Stafford, 2008; Bontis and Serenko, 2009), the ranking consists of approximately 25% of A+ and A, 50% of B, and 25% of C and D level journals. The rationale is to limit the number of top-tier outlets to a small number and to allow many scholars to publish works in outlets of acceptable quality (i.e., B level journals).

Dameron,Thomas Durand,2011-01-01 The field of management education and research has become an industry of its own an industry with fierce international competition in a global arena Here the authors argue that a series of mechanisms has led to mimicking and thus strategic convergence among business schools The authors further argue that this has resulted in a loss of relevance and diversity of the management knowledge produced and taught in a multipolar world They view this as counterproductive to business schools students firms societies and other stakeholders including scholars themselves Based in part on the work of SFM Soci t Fran aise de Management the French Academy of Management the authors of this volume endeavour to engage in strategic conversations with stakeholders in an effort to reshape the field of management studies Redesigning Management Education and Research revisits the foundations of management research and education suggests ways to redesign the content taught to better fit the needs of firms and society at large and proposes actions and concrete examples of what could be done to restructure the institutional setting of the field of management This book calls for collective strategies from management scholars to influence some of the de facto regulation mechanisms that have appeared over recent years such as business school rankings and the race for publication in a narrow list of academic journals This book is also a plea for working on those issues beyond the specificities of national contexts to encompass a broader regional perspective in order to reshape the rules of the game in management education and research Teachers researchers and deans as well as practitioners from all areas of business will find this volume illuminating It offers an ambitious vision and a practical framework aimed squarely at remaking management education and research to be relevant to the demands of the twenty first century **Greenwashing** Agostino Vollero,2022-05-23 Greenwashing Foundations and Emerging Research on Corporate Sustainability and Deceptive Communication examines the understanding of greenwashing provides a systematic review of available literature review and reflects on theoretical approaches and research trends *Handbook of Research Methods in Organizational Change* David B. be publicly funded it was feared that Australia would go further and deregulate fees altogether In the best tradition of the social sciences the contributors have assumed the role of critic and conscience of society to present penetrating analyses of the ramifications of the corporatisation of the university as neoliberalism continues to occupy the ascendant position in the political firmament The dramatis personae in these analyses are students academics managers and political mandarins with the gendered character of corporatisation an important sub theme

Mapping Media Responsibility. Contemporary Aspects of Morals, Ethics and Social Discourse Martin A. M. Gansinger,Ayman Kole,2017-04-10 The purpose of this volume is to broadly discuss the media s responsibility to provide discursive contributions to the ethical and moral challenges of our times At the crossroads of intellectual progress and profit orientation concentration tendencies in the academic publishing industry pose a threat to the reputation and integrity of higher education The actions of whistleblowers like Edward Snowden have radically changed our perception of privacy stirring debates about the ethical and moral dilemma attached to the disclosures Islam and religion continue to rank as urgent topics in the news with the most influential contributions to the public discourse often belonging to ideologically influenced Western voices One century after the Bolshevik revolution in 1917 Russia is still negotiating how to categorize these events which have recently been pointed out in a controversial TV show The example of Nigeria makes clear that insecurity and national development go hand in hand with responsible press coverage while the low self perception of the Belarusian film industry is due partly to its depiction in the country s only cinematographic publication
