**The Ethics of Human Enhancement** Steve Clarke, Julian Savulescu, C. A. J. Coady, Alberto Giubilini, Sagar Sanyal, 2016-10-13 We humans can enhance some of our mental and physical abilities above the normal upper limits for our species with the use of particular drug therapies and medical procedures We will be able to enhance many more of our abilities in more ways in the near future Some commentators have welcomed the prospect of wide use of human enhancement technologies while others have viewed it with alarm and have made clear that they find human enhancement morally objectionable The Ethics of Human Enhancement examines whether the reactions can be supported by articulated philosophical reasoning or perhaps explained in terms of psychological influences on moral reasoning An international team of ethicists refresh the debate with new ideas and arguments making connections with scientific research and with related issues in moral philosophy

*Egalitarianism* Nils Holtug, Kasper Lippert-Rasmussen, 2006-11-30 Egalitarianism the view that equality matters attracts a great deal of attention amongst contemporary political theorists And yet it has turned out to be surprisingly difficult to provide a fully satisfactory egalitarian theory The cutting edge articles in *Egalitarianism* move the debate forward They are written by some of the leading political philosophers in the field Recent issues in the debate over equality are given careful consideration the distinction between telic and deontic egalitarianism prioritarianism and the so called levelling down objection to egalitarianism whether egalitarian justice should have whole lives or some subset thereof as its temporal focus the implications of Scanlon's contractualist account of the value of choice for egalitarian justice and the question of whether non human animals fall within the scope of egalitarianism and if so what the implications are Numerous classic issues receive a new treatment too how egalitarianism can be justified and how if at all this value should be combined with other values such as desert liberty and sufficiency how to define the worst off for the purposes of Rawls difference principle Elizabeth Anderson's feminist account of equality of relations how equality applies to risky choices and in particular whether it is justifiable to restrict the freedom of suppliers who wish to release goods that confer different levels of risk on consumers depending on their ability to pay Finally the implications of egalitarianism and prioritarianism for health care are scrutinized The contributors to the volume are Richard Arneson Linda Barclay Thomas Christiano Nils Holtug Susan Hurley Kasper Lippert Rasmussen Dennis McKerlie Ingmar Persson Bertil Tungodden Peter Vallentyne Andrew Williams and Jonathan Wolff

*The Philosophy of Outer Space* Mirko Daniel Garasic, Marcello Di Paola, 2024-05-24 This volume provides a rigorous philosophical investigation of the rationales challenges and promises of the coming Space Age Over the past decade space exploration has made significant and accelerating progress and its potential has attracted growing attention from science states businesses innovators as well as the media and society more generally Yet philosophical theorizing concerning the premises values meanings and impacts of space exploration is still in its infancy and this potentially immense field of study is far from mainstream yet This book advances outer space philosophy by integrating key scientific and societal

debates sparked by recent developments in space research and activities with conceptual existential ethical aesthetic and political themes and concerns It maps various regions of philosophical exploration reflection and speculation regarding humanity's present and future emanations into outer space to promote a broad rich and nuanced societal debate regarding this transformative enterprise which is as stimulating as it can be disorienting This book will be a fascinating read for academics researchers and students interested in philosophy space studies science and technology studies future studies and sustainability

Neuroscience, Neuroculture, and Neuroethics James Giordano, Roland Benedikter, John R. Shook, 2024-12-10 Contemporary brain research is challenging Western societal norms by questioning basic cornerstones such as individuality freedom rationality solidarity and the concept of the human being in general It is giving way to profound changes in Western concepts of culture and civilization This volume provides a broad overview of the cultural changes incurred by neuroscience and neurotechnology and explores the evolving fields of neuroeconomics neuroreligion neuropolitics and neuroethics It takes a multi disciplinary approach in explaining how neuroscience and neurotechnology will affect society and illustrates how these tools and methods are being used in research and ever expanding practices in varying fields Praise for Neuroscience Neuroculture and Neuroethics A Broad Overview Giordano Benedikter and Shook provide an accessible timely and engaging introduction to the main challenges of neuroscience and neurotechnology for individuals and society It is impressively wide ranging insightfully examining philosophical cultural political and economic dimensions of brain science An especially

fascinating aspect of the book is discussion of the implications of bioenhancement for transhumanism and how it could influence how we define who we are Walter Glannon Professor Emeritus of Philosophy University of Calgary Canada This book provides an excellent survey about the challenging Neuro World It reflects the different perspectives which are relevant for modern societies It is full of information to gather additional knowledge on an international and interdisciplinary level Prof Dr Ernst Poppel Professor of Medical Psychology Ludwig Maximilian University LMU of Munich Germany This engaging and highly accessible book offers an excellent short introduction to the powerful impact of neuroscience and neurotechnology upon modern societies Covering a broad range of issues and perspectives from neuroscience social science philosophy and ethics it is eminently suitable for teaching and provides a thought provoking basis for further discussions Kathinka Evers Professor of Philosophy Senior Researcher in Philosophy at the Centre for Research Ethics and Professor Ad Honorem at the Universidad Central de Chile

*Dissident Philosophers* T. Allan Hillman, Tully Borland, 2021-11-19 The book consists of sixteen essays and an introduction from prominent philosophers who are at odds with the predominant political trends of academic philosophy political trends primarily associated with leftism Some of these philosophers identify explicitly with the political right an admittedly broad term which ranges from American conservative to British Tory from religious right to non religious right from libertarian to authoritarian Yet other dissident philosophers eschew the left right dichotomy altogether while maintaining a firm political distance from the majority of their left leaning colleagues The primary goal of the volume is to represent a broad constituency of political philosophies and perspectives at variance with the prevailing political sentiments of the academy Each essay is partly autobiographical in nature detailing personal experiences that have influenced these philosophers throughout their lives and partly philosophical putting forth reflections on the intellectual viability of a right leaning or decidedly non left leaning political philosophy or some segment of it The contemporary university is supposed to be the locus of viewpoint diversity and yet as is evident to professors students and virtually anyone else who sets foot within its halls it most certainly is not particularly in matters political Nevertheless these essays are not instances of special pleading or grievance incitement Instead each article provides a glimpse into the life of an academic philosopher whose views have largely been at odds with peers and colleagues Furthermore all of the essays were consciously constructed with the aim of being philosophically rigorous while eschewing technical language and verbose prose In short the essays will be enjoyable to a wide audience

*The Posthuman Condition* Kasper Lippert-Rasmussen, Mads Rosendahl Thomsen, Jacob Wamberg, 2012-05-10 If biotechnology can be used to upgrade humans physically and mentally should it be used at all And if so to what extent How will biotechnology affect societal cohesion Can the development be controlled or is this a Pandora's box that should remain closed These are but a few of the perplex questions facing scientists as a result of the increasing ability of technology to change biology and in turn profoundly change human living conditions This development has created a new posthuman horizon that will influence contemporary life and politics in a number of ways The Posthuman

Condition addresses the challenges of Imagining a society where the properties of humans have shifted radically Assessing the scope of deploying technologies that are already underway Basing decisions on an ethical foundation that does not entail a concept of human nature Ascertaining the types of political action that can and should be taken in the face of this situation The anthology brings together researchers from a wide range of disciplines biotechnology medicine ethics politics and aesthetics and among contributors are Francis Fukuyama Julian Savulescu Maxwell Mehlman John Harris and Chris Hables Gray

**A Person as a Lifetime** Stephanie M. Semler,2016-03-04 Is it possible to derive a viable definition of persons from Aristotle s work In A Person as a Lifetime An Aristotelian Account of Persons Stephanie M Semler argues that we can She finds the component parts of this definition in his writing on ethics and metaphysics and the structure of this working definition is that of an entire lifetime If J O Urmson is right that t o call somebody a eudaimon is to judge his life as a whole then a Greek and by extension an Aristotelian account of personhood would be a description of an entire human life Likewise the evaluation of that life would have to be done at its termination The concept of persons is at least as much a moral one as it is a metaphysical one For this reason Semler contends that an important insight about persons is to be found in Aristotle s ethical works The significance of judging one to be a eudaimon is in understanding that the life is complete that is it has a beginning middle and an end with the same person at the helm for the duration If we know what Aristotle s requirements are for a human lifetime is to have all of these features it follows that we can derive an Aristotelian concept of persons from it We find the benefit of such an investigation when the difficulties with issues surrounding personal identity seem to indicate that either personal identity must inhere in the physical body of a person or that on pain of a view that resembles dualism it simply doesn t exist A Person as a Lifetime will be of particular interest to students and scholars of philosophy history classics and psychology and to anyone with an interest in Aristotle

Primoratz, 2006-12-08 This book is a timely contribution to the public debate of morality and politics Is political morality permissive of deception manipulation and violence Is there room for morality in international relations Should torture be used in the war on terror Is patriotism a virtue Asking key questions on pertinent issues this is an essential text

**A Subject Index to Current Literature** Australian Public Affairs Information Service, Judging and Understanding Dr Pedro Alexis

Tabensky,2012-10-01 This collection embodies a debate that explores what could be characterised as the tension between judging and understanding It seems that after a particular threshold of understanding of the basic facts leading to a given moral transgression the more we understand the context and motives leading to crime the more likely we are to abstain from harsh retributive judgement Martha Nussbaum s essay Equity and Mercy included in this collection is the philosophical starting point of this debate and Bernhard Schlink s novel The Reader a novel exploring the tension between judging and understanding among other things is used as a case study by most contributors Some contributors situated at one end of the spectrum of views represented in this collection argue for the wholesale elimination of our practices of retribution in the light of the tension between judging and understanding while contributors on the other side of the spectrum argue that the tension does not actually exist A whole array of intermediate positions including Nussbaum s are represented This anthology is comprised of nearly all specially commissioned essays bringing together work dealing with the moral metaphysical epistemological and phenomenological issues required for properly understanding whether in fact there is a tension between judging and understanding and what the moral and legal implications may be of accepting or rejecting this tension

**Questions of Character** Iskra Fileva,2017 This collection features 26 new essays on character from first rate scholars in philosophy psychology economics and law The essays are elegantly written and combine forceful argumentation with original ideas on a wide range of questions such as Is Aristotle s theory of character a moral theory Are character traits in tension with personal autonomy How do traits differ from mental disorders What is the role of gossip in character attribution and Can businessmen be virtuous The chapters are organized thematically into 5 sections each prefaced by its own special introduction In the introductions the editor brings out often unexpected connections among different lines of argument pursued by the authors and raises important questions for further discussion The collection as a whole offers students of character a unique opportunity to engage with some of the best contemporary work on the topic Moral Cultivation and Confucian Character Chenyang Li,Peimin Ni,2014-07-30 In this volume leading scholars in Asian and comparative philosophy take the work of Joel J Kupperman as a point of departure to consider new perspectives on Confucian ethics Kupperman is one of the few eminent Western philosophers to have integrated Asian philosophical traditions into his thought developing a character based ethics synthesizing Western Chinese and Indian philosophies With their focus on Confucian ethics contributors respond expand and engage in critical dialogue with Kupperman s views Kupperman joins the conversation with responses and comments that conclude the volume
