

The New 6100 Series ... Power with flexibility

The 6100 Series is a new range of 'modular' high performance tractors from Massey Ferguson. The modular design enables variability in the transmission, PTO and hydraulics. So each model in the range can be specified to meet the demands of either general or very specific applications, ensuring the most cost-effective solution to your business needs.

Key features include a superb new cab, new 6-cylinder engine complementing the high performance 'Dynatorque' 6-cylinder units, new lengths of axle stubs, the patented Dynashift transmission, electrohydraulic shuttle, a new optional DetachLink with pin-out capability and a 50" steel 4-wheel drive front axle.

Though covering a wide horsepower range, each tractor in the 6100 Series has in common one key benefit - **usable power**. With a unique combination of engine power and torque characteristics, low pressure PTO and

transmissions including Dynashift, industry leading electronic control systems and first class ergonomics, the 6100 Series gives you unequalled performance and versatility.
