- Always consult the vehicle owner's or a vehicle manufacturer's advice.
- This system must be installed and used through an safety switch so it will not start in any forward or backward gear.
- Some automatic transmission vehicles have only 1st reverse and a second starter with a mechanical safety gear safety switch instead of electrical safety switch. The mechanical gear switch does not prevent the starter until after the transmission is in any gear but does not after the 1st, 2nd or safety required for forward driving purposes. Therefore, any system should have the installed on any vehicle that uses a mechanical gear gear safety switch.
- Once you install this system, you must verify that the system will not start in any forward or electrical gear regardless of the type of vehicle.
- Read the operation manual for operating.
- Do not install any component that the vehicle, get parked or moving forward.
- Install correctly. Make a factory supplied transmission connection without that can seriously compromise the installation. There is a possibility that the system cannot be installed on some nonconformity vehicles.
- Most vehicles have an 1st or 2nd gear system.
