Hip Hop In American Cinema Chapter 2:

Hip Hop in American Cinema Melvin Burke Donalson, 2007 Hip Hop in American Cinema examines the manner in which American feature films have served as the primary medium for mainstreaming hip hop culture into American society With their glamorizing portrayals of graffiti writing break dancing rap music clothing and language Hollywood movies have established hip hop as a desirable youth movement This book demonstrates how Hollywood studios and producers have exploited the profitable connection among rappers soundtracks and mass audiences Hip Hop in American Cinema offers valuable information for courses in film studies popular culture and American studies **Hip Hop around the World**

Melissa Ursula Dawn Goldsmith, Anthony J. Fonseca, 2018-12-01 This set covers all aspects of international hip hop as expressed through music art fashion dance and political activity Hip hop music has gone from being a marginalized genre in the late 1980s to the predominant style of music in America the UK Nigeria South Africa and other countries around the world Hip Hop around the World includes more than 450 entries on global hip hop culture as it includes music art fashion dance social and cultural movements organizations and styles of hip hop Virtually every country is represented in the text Most of the entries focus on music styles and notable musicians and are unique in that they discuss the sound of various hip hop styles and musical artists lyrical content vocal delivery vocal ranges and more Many additional entries deal with dance styles such as breakdancing or b boying b girling popping locking clowning and krumping and cultural movements such as black nationalism Nation of Islam Five Percent Nation and Universal Zulu Nation Country entries take into account politics history language authenticity and personal and community identification Special care is taken to draw relationships between people and entities such as mentor apprentice producer musician and more Crossover Stardom Julie Lobalzo

Wright, 2017-12-28 Crossover Stardom Popular Male Stars in American Cinema focuses on male music stars who have attempted to achieve film stardom Crossover stardom can describe stars who cross from one medium to another Although crossover has become a popular term to describe many modern stars who appear in various mediums crossover stardom has a long history going back to the beginning of the cinema Lobalzo Wright begins with Bing Crosby a significant Hollywood star in the studio era moving to Elvis Presley in the 1950s and 1960s as the studio system collapsed to Kris Kristofferson in the New Hollywood period of the 1970s and ending with Will Smith and Justin Timberlake in the contemporary era when corporate conglomerates dominate Hollywood Thus the study not only explores music stardom and music genres in various eras and masculinity within these periods it also surveys the history of American cinema from industrial and cultural perspectives from the 1930s to today *Beyond the White Negro* Kimberly Chabot Davis, 2014-07-15 Critics often characterize white consumption of African American culture as a form of theft that echoes the fantasies of 1950s era bohemians or White Negroes who romanticized black culture as anarchic and sexually potent In *Beyond the White Negro* Kimberly Chabot Davis claims such a view fails to describe the varied politics of racial crossover in the past fifteen years

Davis analyzes how white engagement with African American novels film narratives and hip hop can help form anti racist attitudes that may catalyze social change and racial justice Though acknowledging past failures to establish cross racial empathy she focuses on examples that show avenues for future progress and change Her study of ethnographic data from book clubs and college classrooms shows how engagement with African American culture and pedagogical support can lead to the kinds of white self examination that make empathy possible The result is a groundbreaking text that challenges the trend of focusing on society s failures in achieving cross racial empathy and instead explores possible avenues for change

Shaping the Future of African American Film Monica White Ndounou,2014-04-29 In Hollywood we hear it s all about the money It s a ready explanation for why so few black films get made no crossover appeal no promise of a big payoff But what if the money itself is color coded What if the economics that governs film production is so skewed that no film by about or for people of color will ever look like a worthy investment unless it follows specific racial or gender patterns This Monica Ndounou shows us is precisely the case In a work as revealing about the culture of filmmaking as it is about the distorted economics of African American film Ndounou clearly traces the insidious connections between history content and cash in black films How does history come into it Hollywood s reliance on past performance as a measure of potential success virtually guarantees that historically underrepresented underfunded and undersold African American films devalue the future prospects of black films So the cycle continues as it has for nearly a century Behind the scenes the numbers are far from neutral Analyzing the onscreen narratives and off screen circumstances behind nearly two thousand films featuring African Americans in leading and supporting roles including such recent productions as Bamboozled Beloved and Tyler Perry s Diary of a Mad Black Woman Ndounou exposes the cultural and racial constraints that limit not just the production but also the expression and creative freedom of black films Her wide ranging analysis reaches into questions of literature language speech and dialect film images and narrative acting theater and film business practices production history and financing and organizational history By uncovering the ideology behind profit driven industry practices that reshape narratives by about and for people of color this provocative work brings to light existing limitations and possibilities for reworking stories and business practices in theater literature and film
