Reproduction and distribution of this work are prohibited by law in the Republic of Turkey.

While product identification numbers in the clearing markets section, denoted by a small asterisk, is helpful in locating the position, it is not ideal. You should also check these numbers when you enter orders. If the number is high in the clearing, that's the confirmation. You'll have a better idea of the position.

Warning is provided as part of the firm's expert report to be submitted into court and subject to the approval of counsel in the future. The company is notified in the company's certificate that we should have investigated and found:

The warranty provides you the assurance that should you find the product under repair within the warranty period, it will be replaced. However, there are several conditions that apply. For example, the warranty does not cover the product if it is not used properly. Should the equipment be abused, or needed to change its performance beyond the original factory specifications, the warranty will become void and your best recourse may be to seek out a local "tune-up" store specialized in otherwise complaining customer satisfaction and service.

Only qualified, experienced operators, strictly trained according to local law, should be allowed to operate the machine. Moreover, only strictly trained personnel should be allowed to inspect - correct the machine.

All information, figures and specifications in this manual are based on the latest product information available at the time of publication. This will be corrected to cover changes as they come to light.
