- ❖ Try to use written resources when at home for research on the animal side of the plan if there is an issue with internet connection during any form of research with the project.
- ❖ Set aside a few hours a day for tending to the animals, along with every 2 days for daily cleaning and their own husbandry.
- ❖ Using the timeline for any other college work required alongside this plan. This would include any assessment revision, report writing or any assessment resists/remediation. Generally Reports would take a full day to write up, so I would be able co-work these with any phone calls I would have to make for my research, but it for the animals or for peoples safety.
