The 5 Simple Truths of Raising Kids R. Bradley Snyder, 2012-10-09 The 5 Simple Truths of Raising Kids draws upon the entirety of Brad's research and professional experience. In his career, he has surveyed over 100,000 children and adolescents personally, interviewing close to 4,000 in group and one-on-one sessions and run direct service programs in major cities nationwide. He breaks down barriers between the generations and presents tweens and teens as they really are. Brad distills the best information on child development, media use, delinquency, and morality into five simple truths that will help parents better understand and appreciate the young people in their lives while providing strategies for addressing everyday concerns in positive and productive ways. Brad doesn't place the danger with kids; rather, he thinks the danger lies with the sensationalized media about tweens and teens. The 5 Truths of Raising Kids is based on solid research, but Brad's writing is easy to digest and punctuated with anecdotes from his own experience counseling kids working within juvenile prisons and developing television programs and video games. Some of it is funny, most of it is practical, but all of it is important to anyone who cares about kids.

Recording Village Life Jennifer Cromwell, 2017-12-05 Recording Village Life presents a close study of over 140 Coptic texts written between 724-756 CE by a single scribe, Aristophanes, son of Johannes of the village Djeme in western Thebes. These texts, which focus primarily on taxation and property concerns, yield a wealth of knowledge about social and economic changes happening at both the community and country-wide levels during the early years of Islamic rule in Egypt. Additionally, they offer a fascinating picture of the scribe's role within this world, illuminating both the practical aspects of his work and the social and professional connections with clients for whom he wrote legal documents. Papyrological analysis of Aristophanes' documents within the context of the textual record of the village shows a new and divergent scribal practice that reflects broader trends among his contemporaries. Aristophanes was part of a larger national system of administrative changes enacted by the country's Arab rulers in order to better control administrative practices and fiscal policies within the country. Yet Aristophanes' dossier shows him not just as an administrator, revealing details about his life, his role in the community, and the elite networks within which he operated. This unique perspective provides new insights into both the micro-history of an individual's experience of eighth-century Theban village life and its reflection in the macro-social, economic, and political trends in Egypt at this time. This book will prove valuable to scholars of late antique studies, papyrology, philology, early Islamic history, social and economic history, and Egyptology.
