T. Emrich,2020-12-17 Social Sensing and Big Data Computing for Disaster Management captures recent advancements in
leveraging social sensing and big data computing for supporting disaster management Specifically analysed within this book
are some of the promises and pitfalls of social sensing data for disaster relevant information extraction impact area
assessment population mapping occurrence patterns geographical disparities in social media use and inclusion in larger
decision support systems Traditional data collection methods such as remote sensing and field surveying often fail to offer
timely information during or immediately following disaster events Social sensing enables all citizens to become part of a
large sensor network which is low cost more comprehensive and always broadcasting situational awareness information
However data collected with social sensing is often massive heterogeneous noisy and unreliable in some aspects It comes in
continuous streams and often lacks geospatial reference information Together these issues represent a grand challenge
toward fully leveraging social sensing for emergency management decision making under extreme duress Meanwhile big
data computing methods and technologies such as high performance computing deep learning and multi source data fusion
become critical components of using social sensing to understand the impact of and response to the disaster events in a
timely fashion This book was originally published as a special issue of the International Journal of Digital Earth *Public
Power* ,1965 Vols for 1978 include an annual directory issue Al Sharpton Carl F. Horowitz,2025-02-07 In August 2014 a
white police officer acting in self defense shot to death an attacker Michael Brown a black youth in Ferguson Missouri Al
Sharpton s rhetoric had much to do with the subsequent local rioting This was nothing new He had been applying his
patented demagoguery to incidents with racial implications for decades in his native New York City and elsewhere under the
guise of justice and civil rights His many prominent supporters have catapulted him to the apex of American life President
Obama and President Biden regularly solicited his advice Major corporations continue to donate money to his nonprofit
National Action Network Public sector employee unions fete him Reverend Al is more subdued and dapper than in his earlier
manic days But that should not be cause for complacency His proximity to power and regular news media presence make him
ever more dangerous in these increasingly radicalized times
