Le Prisme De La Prostitution:

LE PRISME DE LA PROSTITUTION Gail Pheterson, 2001-01-01 La problématique envisagée ici n'est ni le commerce du sexe ni l'oppression d'une catégorie de femmes mais les concepts mêmes de prostitution et de prostituée. Ces concepts sont des instruments sexistes de contrôle social. Les droits de l'ensemble des femmes sont indissolublement liés aux droits des prostituées parce que le stigmate de putain peut s'appliquer n'importe quelle femme pour disqualifier sa revendication la légitimer et peut jeter la suspicion sur n'importe quelle femme accusée d'avoir pris une initiative dans le domaine économique et ou sexuel.

Trafficking and Sex Work Mathilde Darley, 2022-12-30 Set in different national contexts Brazil Bulgaria France Germany Laos Norway Thailand and in different social science disciplines the chapters of this volume aim at questioning anti trafficking policies and their practical impact on sex work regulation. Many actors from media to researchers from nonprofit organizations to law enforcement agencies from experts to reality tourists contribute to produce knowledge on trafficking and sexual exploitation and thus to institutionalize it as a category of thought and action by naming and framing perpetrators and victims they make trafficking come true as a public problem. The book pays particular attention to the way the international expertise produced by these different actors and institutions on sexual exploitation and sex work impacts local control practices especially with regard to law enforcement. The fight against trafficking as it gets institutionalized and put into practice then appears as a way to reaffirm a gendered and racialized public order. Building analytical bridges between different national contexts and relying on contextualized fieldwork in different countries the book is of great interest for academics as well as for practitioners and or activists working on sex and gender issues and migration policies. Also it resonates with a broader literature on the construction of public problems in sociology and political science.

Prostitutions de mineures
Bénédicte Lavaud-Legendre, 2023-03-01T00:00:00-05:00 La prostitution des mineures telle qu'elle est observée en ce début de XXI^e siècle en France provoque une importante motion et une mobilisation des pouvoirs publics Les professionnels confrontés à ces pratiques font état d'importantes difficultés dans l'accompagnement des mineures impliquées Elles leur renvoient leur incapacité à comprendre ce qu'elles vivent l'existence d'un fossé générationnel ou encore leur dramatisation d'une activité qu'elles considèrent comme anodine De leur côté les professionnels disent la difficulté qui est la leur prendre de la distance avec des pratiques qui peuvent être très violentes mais galemment avec la réaction de rejet que peut susciter le discours souvent très cru des mineures voire leurs multiples provocations et la mise en échec de toute proposition d'accompagnement L'expression Trouver la juste distance entend faire état de la difficulté de se situer entre différentscueils Le premier est celui d'une trop grande proximité avec les jeunes concernés proximité qui peut conduire un phénomène d'identification de grande empathie l'inverse cette même proximité peut générer une réaction de rejet face à celle qui revendique parfois de se panourir dans la vente de ses charmes et gagner dix fois plus d'argent que le professionnel qui tente laborieusement de créer avec elle une relation de confiance pour l'aider faire un bout du chemin qui la conduira vers l'âge adulte L'agressivité lorsqu'elle se retourne vers celui qui propose son aide peut se traduire en violences insultes et mise en échec des propositions éducatives De son côté l'intellectuel peut s'abriter derrière les concepts pour mettre distance toute la violence renvoyée par de telles situations au risque d'en mésestimer la gravité L'ambition de cet ouvrage sera donc de Trouver la juste distance Cette quête se fera par la mise en œuvre d'une approche pluridisciplinaire qui tentera de rester toujours vigilante l'impératif de maintenir ouvert le dialogue entre les approches et les disciplines afin de susciter le passage vers l'interdisciplinarité
