These spatial archetypes denote more than real world objects or settings; they suggest and bring forward emotional states, historical context, atmospheric attunement. In the words of Massumi and aesthetic programs that go beyond plain semiotic reference. In each chapter Mathias Fuchs brings to the fore an archetype commonly found in old and new digital games: The Ruin, The Cave, The Cloud, The Portal, The Road, The Forest, and The Island. Each is analysed at length through the perspectives of aesthetics, games technology, psychoanalysis and intertextuality. Gridding these seven tropes together with these four analytical lenses provides the reader with a systematic framework to understand the various complex considerations at play in evocative game design. **The Greenwood Encyclopedia of Folktales and Fairy Tales: G-P** Donald Haase, 2008 Provides alphabetically arranged entries on folk and fairy tales from around the world, including information on authors, subjects, themes, characters and national traditions.
