Revolution in Paradise Yehuda

Moraly, 2019-11-01 The era of the German Occupation of France constituted surprisingly a golden age for the arts literature theater popular music and cinema These works of art seem to be devoid of political impact The widespread trend of unrealistic and fantastic art during this period is explained by some scholars as the artists escape from the omnipotent eye of German censorship The purpose of the book is to show that contrary to the accepted view some of these films were intimately linked to the political situation They convey the demonization of characters that while not specifically presented as Jews nevertheless manifested anti Semitic stereotypes of the Jew as ugly rootless low hypocritical immoral cruel and power hungry All five movies analysed Les Inconnus dans la maison dir Henri Decoin 1942 Les Visiteurs du Soir dir Marcel Carne 1942 L'Eternel retour dir Jean Delannoy 1943 Les Enfants du Paradis dir Marcel Carne 1943 present characters not identified as Jews but who exhibit negative Jewish traits in contrast to the aristocratic characters whom they aspire to emulate They demonstrate implicitly central themes of explicit anti Semitic propaganda Yehuda Moraly addresses two current major misconceptions regarding the Cinema of Occupied France 1 that the accepted view that there were almost no explicitly Jewish characters in the cinema of that time and place is patently incorrect and 2 that the feature films of Occupied France were not as it is commonly thought free of the propaganda messages that permeated the press the radio and documentary films Analysis of these films brings out the contradictory nature of European anti-Semitism On one hand the Jew is the anti Christ throttling the world with disgusting materialism while on the other hand he is representative of an ancestral stifling

Stereo: Comparative Perspectives on the Sociological Study of Popular Music in France and Britain Dr Hugh Dauncey, Mr Philippe Le Guern, 2013-01-28 The term Popular Music has traditionally denoted different things in France and Britain In France the very concept of popular music has been fiercely debated and contested whereas in Britain and more largely throughout what the French describe as the Anglo saxon world popular music has been more readily accepted as a description of what people do as leisure or consume as part of the music industry and as something that academics are legitimately entitled to study French researchers have for some decades been keenly interested in reading British and American studies of popular culture and popular music and have often imported key concepts and methodologies into their own work on French music but apart from the widespread use of elements of French theory in British and American research the Anglo saxon world has remained largely ignorant of particular traditions of the study of popular music in France and specific theoretical debates or organizational principles of the making and consuming of French musics French British and American research into popular music has thus coexisted with considerable cross fertilization for many years but the barriers of language and different academic traditions have made it hard for French and anglophone researchers to fully appreciate the ways in which popular music has developed in their respective countries and the perspectives on its study adopted by their colleagues This volume provides a comparative and contrastive perspective on popular music and its study in France and the UK
