Le Sursaut Ou Le Chaos:

The European debt crisis Costas Simitis, 2016-05-16 In this book former Greek Prime Minister Costas Simitis examines the European debt crisis with particular reference to the case of Greece Greece was the first Eurozone country to face an enormous deficit which reached 15% of GDP in 2009 As the Greek crisis unfolded other Eurozone countries displayed identical symptoms albeit in varying degrees of severity From a strictly Greek predicament the debt crisis quickly turned into a problem for the European Union as a whole This first English language translation investigates the causes of this spillover and chronicles the policy responses to combat it It also discusses Greece's troubled political economy the country's difficulties in adjusting to the demands of its creditors and the vehement social and political reactions to the policy of austerity Through his comprehensive and authoritative analysis Simitis provides valuable insights into the crucial interconnection between Greece's own economic troubles and the wider European search for macroeconomic stability and sustainable economic growth As such the book appeals well beyond those with a narrow academic interest in Greece This is very much a discussion about the future of the Eurozone and the European Union as a whole *After Charlie Hebdo* Gavan

Titley, Des Freedman, Gholam Khiabany, Aurélien Mondon, 2017-11-15 As the world looked on in horror at the Paris terror attacks of January and November 2015 France found itself at the centre of a war that has split across nations and continents The attacks set in motion a steady creep towards ever more repressive state surveillance and have fuelled the resurgence of the far right across Europe and beyond while leaving the left dangerously divided These developments raise profound questions about a number of issues central to contemporary debates including the nature of national identity the limits to freedom of speech and the role of both traditional and social media *After Charlie Hebdo* brings together an international range of scholars to assess the social and political impact of the Paris attacks in Europe and beyond Cutting through the hysteria that has characterised so much of the initial commentary it seeks to place these events in their wider global context untangling the complex symbolic web woven around Charlie Hebdo to pose the fundamental question how best to combat racism in our supposedly post racial age **Le sursaut ou le chaos** Thierry de Montbrial, 2015-06-04 L'heure n'est plus au
