 Ladurie,1985 **The French Historical Revolution** Peter Burke,2015-01-20 This book provides a critical history of the
 movement associated with the journal *Annales* from its foundation in 1929 to the present This movement has been the single
 most important force in the development of what is sometimes called the new history Renowned cultural historian Peter
 Burke distinguishes between four main generations in the development of the *Annales* School The first generation included
 Lucien Febvre and Marc Bloch who fought against the old historical establishment and founded the journal *Annales* to
 encourage interdisciplinary collaboration The second generation was dominated by Fernand Braudel whose magnificent work
 on the Mediterranean has become a modern classic The third generation deeply associated with the cultural turn in historical
 scholarship includes recently well known historians such as Emmanuel Le Roy Ladurie Jacques Le Goff and Georges Duby
 This new edition brings us right up to the present and contemplates the work of a fourth generation including practitioners
 such as Roger Chartier Serge Gruzinski and Jacques Revel This new generation continued much of the cultural focus of the
 previous *Annales* historians while diversifying further and becoming increasingly reflexive a move that owes much to the
 sociocultural theories of Michel Foucault Michel de Certeau and Pierre Bourdieu Wide ranging yet concise this new edition of
 a classic work of analysis of one of the most important historical movements of the twentieth century will be welcomed by
 students of history and other social sciences and by the interested general reader **Annales** Stuart Clark,1999 This
