

## **A Short Speech on Leadership**

*By Tom Coyne*

Thank you for inviting me here today to talk about leadership – an issue that is absolutely central to our ability to thrive in a world of increasing complexity and accelerating change.

Let me start with the big picture. Since humans first banded together on the east African plain eons ago, evolutionary selection has primarily operated on groups, not individuals. Teams win and lose. Companies succeed and fail. And nations and empires rise and fall. For this reason, group leadership is critical.

To survive and thrive, every organization must competently execute four processes. Three of them are relatively easy to describe.

- Strategy is about sensemaking and design. The former seeks to identify the key elements in the situation facing an organization, how they are related, and how they are likely to evolve in the future. The result is assumptions that form the basis for the design process – determining how to achieve desired goals with available means.
- Execution implements this strategic design, by developing objectives, metrics, plans, budgets, processes, systems, organization and mechanisms to provide feedback and drive adaptation.
- Finally, risk management ensures survival by identifying and assessing risks and uncertainties, providing warning of adverse changes, mitigating and transferring loss exposures, and strengthening organizational resilience and adaptive capabilities.

However, excellent strategy, execution, and risk management alone won't deliver survival and success. They need leadership to integrate and animate them. But just what is leadership about?

At the most basic level, we need to distinguish between dominance and leadership. In some groups, a dominant individual will seize power and assert control. This is the world of animal herds, of palace intrigue, authoritarian dictatorships, and mafia families. However, while these situations all make for great television, dominance isn't leadership. Rather, over the years I've become more focused on the nature of leadership as a relationship – an honor that is bestowed upon a person by followers who are willing to place their trust in them.

This enlightening and inspiring book shows both accomplished and aspiring leaders how to harness Buddhist philosophies to practice more effective and sustainable leadership. Illustrated through the stories of visionary and innovative leaders in many fields including Elon Musk, Tesla, Malala Yousafzai, human rights, Howard Schultz, Starbucks, and Muhammad Yunus, microfinance and development, this volume links an ancient Buddhist concept known as the Noble Eightfold Path to contemporary needs to develop an alternative paradigm to the excessive bottom line focus and winner take all approach that has come to dominate leadership practice in recent decades. The stunning rejection by the United Kingdom of the European Union and the divisive US presidential race of 2016 serve as a dramatic backdrop to complex social issues that require creative solutions bringing together stakeholders from different fields and points of view. The Eightfold Path, characterized by the following elements: Right View, Right Intention, Right Speech, Right Action, Right Livelihood, Right Effort, Right Mindfulness, and Right Concentration, is an approach to leadership that balances individual and collective concerns while aligning pragmatic and spiritual priorities. Joan Marques, an accomplished author, speaker, and educator on spirituality in organizations with extensive experience in teaching and applying Buddhist principles, demonstrates how the Eightfold Path can inform practices and decisions that result in long-term communal benefits and in the process develop more mindful and conscientious leaders capable of tackling multifaceted challenges. *The Sample Case*, 1923. [Routledge Handbook of Foreign Policy Analysis Methods](#) Patrick A. Mello, Falk Ostermann, 2022-12-26. The disintegration and questioning of global governance structures and a re-orientation toward national politics combined with the spread of technological innovations such as big data, social media, and phenomena like fake news, populism, or questions of global health policies make it necessary for the introduction of new methods of inquiry and the adaptation of established methods in Foreign Policy Analysis (FPA). This accessible handbook offers concise chapters from expert international contributors covering a diverse range of new and established FPA methods. Embracing methodological pluralism and a belief in the value of an open discussion about methods, assumptions, and diverging positions, it provides new state-of-the-art research approaches as well as introductions to a range of established methods. Each chapter follows the same approach: introducing the method and its development, discussing strengths, requirements, limitations, and potential pitfalls, while illustrating the method's application using examples from empirical research. Embracing methodological pluralism and problem-oriented research that engages

with real world questions the authors examine quantitative and qualitative traditions rationalist and interpretivist perspectives as well as different substantive backgrounds The book will be of interest to a wide range of scholars and students in global politics foreign policy and methods related classes across the social sciences Chapters 4 25 and 32 of this book are available for free in PDF format as Open Access from the individual product page at [www.routledge.com](http://www.routledge.com) It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

**COVID-19 and Existential Positive Psychology (PP2.0): The New Science of Self-Transcendence** Paul T. P. Wong, Claude-Hélène Mayer, Gökmen Arslan, In the era of COVID 19 many people have suffered high levels of stress and mental health problems To cope with the widespread of suffering physical psychological social and economical the positive psychology of personal happiness is no longer the sole approach to examine personal wellbeing Other approaches such as Viktor Frankl's theory of self transcendence provide a promising framework for research and intervention on how to achieve resilience wellbeing and happiness through overcoming suffering and self transcendence The existential positive psychology of suffering complements the positive psychology of happiness which is championed by Martin Seligman as two equal halves of the circle of wellbeing and optimal mental health This Research Topic aims to examine the different approaches to Positive Psychology and their influence on individual wellbeing during the COVID 19 era One of the exciting development in the positive psychology of wellbeing is the mounting research on the adaptive benefits of negative emotions such as shame guilt and anger as well as the dialectical process of balancing negative and positive emotions As an example based on all the empirical research and Frankl's self transcendence model Wong has developed the existential positive psychology of suffering PP2.0 as the foundation for flourishing Here are a few main tenets of PP2.0 1 Life is suffering and a constant struggle throughout every stage of development 2 The search for self transcendence is a primary motive guided by the meaning mindset and mindful mindset 3 Wellbeing cannot be sustainable without overcoming and transforming suffering In this Research Topic we welcome diverse approaches discussing the following points The dialectic process of overcoming the challenges of every stage of development as necessary for personal growth and self transcendence The role of self transcendence in resilience virtue meaning and happiness The upside of negative emotions The new science of resilience based on cultivating the resilient mindset and character How to make the best use of suffering to achieve out potentials mental health

**Changes in Jihadi Discourse in the Wake of the "Islamic State"** Christina Hartmann, 2022-11-10 Changes in Jihadi Discourse in the Wake of the Islamic State explores how the transnational jihadi discourse changed with the development of the Islamic State terrorist group and resulted in the fragmentation of the jihadi movement From the Middle East through Africa to South East Asia today's jihadi movement is more fragmented than ever Al Qaida and the Islamic State compete not only with each other but also with local jihadi groups Despite the fact that in the wake of the Islamic State international jihadi groups are in fierce competition for supporters little has been said on how the process of competition as well as external events changed

the ideology of these groups and the topics relevant to them Countering dominant research focusing on the differences between jihadi strains this book explores how the appearance and temporary strength of the Islamic State changed the topics and talking points of other jihadi actors such as al Qaida By analyzing primary sources in Arabic and English the author sheds light on the inner and inter jihadi discourse and its development over the years The book does not simply describe changes in topics it traces these changes quantitatively and relates them to external events This book is aimed at academics researchers and postgraduate students interested in political science security studies jihadism jihadi discourse al Qaida Islamic State and Salafism as well as practitioners and decision makers in government agencies who wish to understand how transnational jihadi discourse has developed over the previous two decades
