Steven Friedman,2021-06-01 Building on the work of economic historian Douglass North and Ugandan political scholar Mahmood Mamdani Friedman argues that the difficulties besetting South African democracy are legacies of the past not products of the post 1994 era South Africa s democracy is often seen as a story of bright beginnings gone astray a pattern said to be common to Africa The negotiated settlement of 1994 it is claimed ended racial domination and created the foundation for a prosperous democracy but greedy politicians betrayed the promise of a new society In Prisoners of the Past Steven Friedman astutely argues that this misreads the nature of contemporary South Africa Building on the work of the economic historian Douglass North and the political thinker Mahmood Mamdani Friedman shows that South African democracy s difficulties are legacies of the pre 1994 past The settlement which ushered in majority rule left intact core features of the apartheid economy and society The economy continues to exclude millions from its benefits while racial hierarchies have proved stubborn apartheid is discredited but the values of the pre 1948 colonial era the period of British colonization still dominate Thus South Africa s democracy supports free elections civil liberties and the rule of law but also continues past patterns of exclusion and domination Friedman reasons that this path dependence is not as is often claimed the result of constitutional compromises in 1994 that left domination untouched This bargain was flawed because it brought not too much compromise but too little Compromises extended political citizenship to all but there were no similar bargains on economic and cultural change Using the work of the radical sociologist Harold Wolpe Friedman shows that only negotiations on a new economy and society can free South Africans from the prison of the past **FCS Animal Production**

Addison,2019-08-15 South African agriculture is characterized by growing labour unrest evinced in recent years by high profile strikes but little is known about the sources and forms of day to day struggle In Chiefs of the Plantation Lincoln

Addison examines how labour conflict is fuelled by changing management practices and how workers respond and resist across spatial sexual and spiritual domains. Depicting in rich ethnographic detail daily life on a plantation, Addison describes how agriculture has been restructured in the post apartheid era through a delegation of authority from white landowners to black intermediaries. He explains that while this labour regime enables the profitability of plantations, it gives rise to a fragile moral economy in which perceptions of what is tolerable and what is exploitation frequently clash. In this environment, transactional sex and Christian worship emerge as important terrains of gendered and spiritual contestation where women and low ranking workers remain resilient in the face of unequal power relations. Meanwhile, plantations project an appearance of benevolent paternalism, particularly in the narratives and self identity of white landowners. This book reveals how in the everyday life of the community, both the plantation and the compound where the workers live, serve as central grounds for the negotiation of labour relations. A groundbreaking study that uncovers how migrant plantation workers challenge their exploitation, *Chiefs of the Plantation* is a rare glimpse into the often hidden world of labour struggle on contemporary plantations. **South African Journal of Geology**, 2004. Ethnographic Archaeologies. Quetzil Castañeda, Christopher N. Matthews, 2008-02-08. Ethnographic archaeology has emerged as a form of inquiry into archaeological dilemmas that arise as scholars question older, more positivistic paradigms. *Ethnographic Archaeologies* describes diverse methods, objectives and rationalities currently employed in the making of engaged and collaborative archaeological research. The contributors to this volume, for example, understand ethnographic archaeology variously as a means of critical engagement with heritage stakeholders, as the basis of public policy debates, as a critical archaeological study of ethnic groups, as the study of what archaeology actually does, as opposed to what researchers often think they are doing in excavations and surveys, and as a foundation for transnational collaborations among archaeologists. What keeps the term ethnographic archaeology coherent and relevant is the consensus among practitioners that they are embarking on a new archaeological path by attempting to engage the present directly and fundamentally. The Mining Journal, Railway and Commercial Gazette, 1884. Engineering Materials, Structures, Systems and Methods for a More Sustainable Future. Alphonse Zingoni, 2025-08-07. *Engineering Materials Structures Systems and Methods for a More Sustainable Future* comprises 275 papers that were presented at SEMC 2025, the Ninth International Conference on Structural Engineering Mechanics and Computation. This event, held in Cape Town, South Africa, from 1 to 3 September 2025, was attended by around 300 participants from 42 countries worldwide. The Proceedings are divided into 15 sections. The various topics may be grouped into five broad categories: i) the mechanics of materials, solids and structures; ii) numerical modelling, computational simulations and experimental testing; iii) analysis, design and construction in the traditional engineering materials; iv) innovative engineering materials, structures and methods; v) maintenance, long term performance, life cycle considerations and sustainable construction. *Engineering Materials Structures Systems and Methods for a More Sustainable*
