

When subtracting three-digit numbers you can use a number line to help you. This method looks like adding, because it starts with the smaller number and then counts on to the bigger number to find the difference between the two numbers.

$$517 - 392 =$$

You then add up all the jumps you have made on the top:

$$8 + 100 + 17 = 125$$

The difference between 392 and 517 is 125.
