[Manual of Deixis in Romance Languages](#)
Konstanze Jungbluth, Federica Da Milano, 2015-10-16
Deixis, as a field of research, has generated increased interest in recent years. It is crucial for a number of different subdisciplines: pragmatics, semantics, cognitive and contrastive linguistics, to name just a few. The subject is of particular interest to experts and students, philosophers, teachers, philologists, and psychologists interested in the study of their language or in comparing linguistic structures. The different deictic structures, not only the items themselves but also the oppositions between them, reflect the fact that neither the notions of space, time, person, nor our use of them are identical cross-culturally. This diversity is not restricted to the difference between languages but also appears among related dialects and language varieties. This volume will provide an overview of the field, focusing on Romance languages but also reaching beyond this perspective. Chapters on diachronic developments, language change, comparisons with other non-European languages, and on interfaces with neighboring fields of interest are also included. The editors and

authors hope that readers regardless of their familiarity with Romance languages will gain new insights into deixis in general and into the similarities and differences among deictic structures used in the languages of the world *Civil Airworthiness Certification* Miguel Vasconcelos, United States Department of Transportation, Federal Aviation Administration, 2013-09-19 This publication provides safety information and guidance to those involved in the certification operation and maintenance of high performance former military aircraft to help assess and mitigate safety hazards and risk factors for the aircraft within the context provided by Title 49 United States Code 49 U S C and Title 14 Code of Federal Regulations 14 CFR and associated FAA policies Specific models include A 37 Dragonfly A 4 Skyhawk F 86 Sabre F 100 Super Sabre F 104 Starfighter OV 1 Mohawk T 2 Buckeye T 33 Shooting Star T 38 Talon Alpha Jet BAC 167 Strikemaster Hawker Hunter L 39 Albatros MB 326 MB 339 ME 262 MiG 17 Fresco MiG 21 Fishbed MiG 23 Flogger MiG 29 Fulcrum S 211 DISTRIBUTION Unclassified Publicly Available Unlimited COPYRIGHT Graphic sources Contains materials copyrighted by other individuals Copyrighted materials are used with permission Permission granted for this document only Where applicable the proper license s i e GFD or use requirements i e citation only are applied **The Wildlife Techniques Manual** Nova J.
