Policy

It is the policy of Bay-Arenac-Behavioral Health Authority (BABHA) to evaluate or screen persons served for the presence of pain in order to determine the need for further assessment. If appropriate, the person will be referred to the appropriate pain management resources, which will coordinate care plans with the primary care physician to treat the effects of chronic pain.

Purpose

This policy and procedure was established to provide a process by which individuals receive a screening process for a comprehensive pain assessment, if appropriate.

Education Applies to

- ☐ All BABHA Staff
☒ Selected BABHA Staff, as follows: All Clinical, Clinical Management, Ancillary Care and Agency Nurses – Residential and Clinical
☒ All Contracted Providers: ☐ Policy Only ☒ Policy and Procedure
☐ Selected Contracted Providers, as follows:
☐ Policy Only ☐ Policy and Procedure
☐ BABHA's Affiliates: ☐ Policy Only ☐ Policy and Procedure
☐ Other:

Background

BABHA understands the impact that physical pain can have on a person's mental behavioral health, personal relationships, life roles and overall quality of life. BABHA is committed to screening or evaluating individuals on an annual basis, for the presence of conditions that may be causing pain and to assist the consumer in developing a plan to address these conditions.

Mayo Clinic Policy Manual:

Caring for the Heart W Bruce Fye, 2015-02-03 This groundbreaking book weaves together three important themes It describes major developments in the diagnosis and treatment of heart disease in the twentieth century explains how the Mayo Clinic evolved from a family practice in Minnesota into one of the world's leading medical centers and reveals how the invention of new technologies and procedures promoted specialization among physicians and surgeons Caring for the Heart is written for general readers as well as health care professionals historians and policy analysts Unlike traditional institutional or disease focused histories this book places individuals and events in national and international contexts that emphasize the interplay of medical scientific technological social political and economic forces that have resulted in contemporary heart care Patient stories and media perspectives are included throughout to help general readers understand the medical and technological developments that are described The book is a synthetic study but it is written so that readers may pick and choose the chapters of most interest to them Another feature of the book is that readers may follow the stories without looking at the notes Those who are interested in delving deeper into the main topics will find a wealth of carefully chosen references that offer greater detail and additional perspectives The descriptions and interpretations that fill the book benefit from the fact that the author has been a practicing cardiologist and medical historian for almost four decades This is mainly a twentieth century story but it begins earlier before there were physicians who were identified as cardiologists and at a time when medical specialization was just emerging in America The final chapter which addresses present day concerns about health care costs counterbalances earlier ones that might be read as celebrations of new technologies [The Case Manager's Handbook](#) Catherine M.
