no matter how mundane or absurd to demonstrate not only how advances in technology have affected the reference librarian's job but how the public's expectations have changed as well. The book also includes observations by a now retired reference librarian on the current state of the field based on these unedited interactions. Over the past two decades the job of reference librarian has seen many changes. But in many ways reference desk work hasn't changed a bit with its mix of odd, humorous, routine, and ridiculous requests that capture what it's like to deal with patrons day after day. *Reference Librarianship* paints a clear picture of the field for library school students, provides emotional and philosophical support to practitioners, and reminds library administrators of what life was like on the front lines. A sampling of the daily transactions documented in *Reference Librarianship*:

Monday May 19 2003 pencil pencil network down I tell people that I can't sign them up for an Internet terminal because the network is down and they just stand there staring into space. One of them asks for three days' worth of newspapers, microfiche machine explanation. Sorry Sir, the network is still down. Multiply by twenty and insert randomly into the remainder of the day: magic tricks, but he pretty much knew where they were. One of our large interior plate glass windows shattered. No one was hurt and it made a fascinating noise like a crystal waterfall landing on soil. Books on prostitution, you know, whores. Someone from the County called to ask if any criminal activity had occurred on a particular street. Someone else referred her to us. She was dubious with good reason. Math puzzles. Okay, I show him the books. Just math. Certainly, I show him the books I need them in Spanish. Grrr.

Reference Librarianship is an enlightening, educational, and entertaining look at the real world of reference desk work. It's an essential read for reference librarians, both public and academic, library administrators, and library school students, as well as anyone who works with the public. **Mazda 323** Mazda Motor Corporation (Hiroshima), 1989 **Australian National Bibliography**, 1993 *Regression Analysis for Acceleration Performance of Light Duty Vehicles.
