Pedagogies of Kindness and Respect Paul Lee Thomas,2015 Pedagogies of Kindness and Respect presents a wide variety of concepts from scholars and practitioners who discuss pedagogies of kindness an alternative to the no excuses

ideology now dominating the way that children are raised and educated in the U S today The fields of education and especially early childhood education include some histories and perspectives that treat those who are younger with kindness and respect This book demonstrates an informed awareness of this history and the ways that old and new ideas can counter current conditions that are harmful to both those who are younger and those who are older while avoiding the reconstitution of the romantic innocent child who needs to be saved by more advanced adults Two interpretations of the upbringing of children are investigated and challenged one suggesting that the poor do not know how to raise their children and thus need help while the other looks at those who are privileged and therefore know how to nurture their young These opposing views have been discussed and problematized for more than thirty years Pedagogies of Kindness and Respect investigates the issue of why this circumstance has continued and even worsened today

The Flourishing Family David Erickson, Amanda Erickson, 2024-09-17 When it comes to Christian parenting we crave confidence wisdom and most of all peace We pray for peace when our little ones are tossed about by waves of emotions for connection and confidence when navigating stressful mornings and exhausting nights and for wisdom in knowing how best to discipline our kids As Christian parents we re desperate to get it right to raise our children to be strong courageous followers of Jesus and yet despite the overload of endless advice at our fingertips we often feel completely and utterly lost You can become the parent Christ has called you to be and change your home and family from the inside out In The Flourishing Family Dr David and Amanda Erickson offer a new parenting perspective one that cultivates peace gentleness and confidence Deeply rooted in Scripture

and backed by modern neuroscience as well as insight into child development their book will equip you to rethink common assumptions about what the Bible says about parenting and align your parenting approach with the teachings of Jesus and your identity in Him cultivate the inner peace needed to lead and guide your family with Christ and His grace at the center critically assess various gentle parenting principles through a Gospel lens so that you can respond to your child with understanding and patience honoring the divine image and unique personality God created them to have and use compassionate discipline as discipleship to focus on the heart behind your child's actions addressing the developmental or neurological roots of their behavior rather than merely correcting or punishing their actions or choices Your legacy is not defined by your parenting perfection but by your commitment to follow in the way of Jesus and to trust His Spirit to cultivate the seeds you're diligently planting throughout your children's lives Trust that He will meet you in these pages and that He will transform your hearts and home

Community Music at the Boundaries Lee Willingham, 2021-04-06 Music lives where people live Historically music study has centred on the conservatory which privileges the study of the Western European canon and Western European practice The Eurocentric way music has been studied has excluded communities that are considered to be marginalized in one or more ways despite that the majority of human experiences with music is found outside of that realm Community music has emerged as a counter narrative to the hegemonic music canon it seeks to increase the participation of those living on the boundaries *Community Music at the Boundaries* explores music and music making on those edges The real power of community music writes Roger Mantie in the foreword lies not in the fiction of trying to eliminate boundaries or pretending they don't exist but in embracing the challenge of walking them Contributions from scholars and researchers music practitioners and administrators examine the intersection of music and communities in a variety of music making forms ensembles university and police choirs bands prison performing groups youth music groups instrument classes symphonies drum circles and musical direction and
