Congress,1978 Learning to See Alan Gowans,1981 Learning to See starts on the assumption that popular commercial arts are a different kind of activity from avant garde arts today but that they represent the same kind of activity that we identify as arts historically It proceeds then to investigate how popular commercial arts carry out the social functions of historic arts And it claims that once we can thereby understand how historic arts worked in and for society art history becomes a significant new tool for objective historical research as never before
