Themes of the Times on the Environment, Vol 2 Jay H. Withgott, Scott R. Brennan, New York Times Staff, 2006-09-29 Themes of the Times on the Environment is a collection of 15 current articles covering environmental issues that are in the news today This supplement offers a range of case studies in addition to what is offered in the text with stories of real people in real places backed by real data This supplement is included at no charge when bundled with the book **Dammed** Brittany Luby, 2020-10-09 Dammed explores Canada s hydroelectric boom in the Lake of the Woods area It complicates narratives of increasing affluence in postwar Canada revealing that the inverse was true for Indigenous communities along the Winnipeg River Dammed makes clear that hydroelectric generating stations were designed to serve settler populations Governments and developers excluded the Anishinabeg from planning and operations and failed to consider how power production might influence the health and economy of their communities By so doing Canada and Ontario thwarted a future

that aligned with the terms of treaty a future in which both settlers and the Anishinabeg might thrive in shared territories The same hydroelectric development that powered settler communities flooded manomin fields washed away roads and compromised fish populations Anishinaabe families responded creatively to manage the government sanctioned environmental change and survive the resulting economic loss Luby reveals these responses to dam development inviting readers to consider how resistance might be expressed by individuals and families and across gendered and generational lines Luby weaves text testimony and experience together grounding this historical work in the territory of her paternal ancestors lands she calls home With evidence drawn from archival material oral history and environmental observation Dammed invites readers to confront Canadian colonialism in the twentieth century *Themes of the Times on the Environment, Vol 1* Scott R.
