Essentials of Federal Income Taxation Herbert C. Sieg, Linda Marie Johnson, 2003-11-01 This book features an easy reading straightforward format approach that is both simplified and direct without complex legal language It introduces basic tax concepts and then fully illustrates them with clear examples and helpful filled in forms Places in Need Scott W. Allard, Scott Allard, 2017-06-20 Americans think of suburbs as prosperous areas that are relatively free from poverty and unemployment Yet today more poor people live in the suburbs than in cities themselves In *Places in Need* social policy expert Scott W Allard tracks how the number of poor people living in suburbs has more than doubled over the last 25 years with little attention from either academics or policymakers Rising suburban poverty has not coincided with a decrease in urban poverty meaning that solutions for reducing poverty must work in both cities and suburbs Allard notes that because the suburban social safety net is less developed than the urban safety net a better understanding of suburban communities is critical for understanding and alleviating poverty in metropolitan areas Using census data administrative data from safety net programs and interviews with nonprofit leaders in the Chicago Los Angeles and Washington D C metropolitan areas Allard

shows that poor suburban households resemble their urban counterparts in terms of labor force participation family structure and educational attainment In the last few decades suburbs have seen increases in single parent households decreases in the number of college graduates and higher unemployment rates As a result suburban demand for safety net assistance has increased Concerning is evidence suburban social service providers which serve clients spread out over large geographical areas and often lack the political and philanthropic support that urban nonprofit organizations can command do not have sufficient resources to meet the demand To strengthen local safety nets Allard argues for expanding funding and eligibility to federal programs such as SNAP and the Earned Income Tax Credit which have proven effective in urban and suburban communities alike He also proposes to increase the capabilities of community based service providers through a mix of new funding and capacity building efforts Places in Need demonstrates why researchers policymakers and nonprofit leaders should focus more on the shared fate of poor urban and suburban communities This account of suburban vulnerability amidst persistent urban poverty provides a valuable foundation for developing more effective antipoverty strategies
