Faces Of Talent:

Heads, Faces, Types, Races Victor Gabriel Rocine, 1910

Global Talent Management Akram Al Ariss, 2014-04-28

This book bridges the research and practice of global talent management. It opens important theoretical and practical avenues to understand the concept internationally while focusing on developing and emerging countries. Chapters derive from various geographic regions and embrace cross national comparative and interdisciplinary perspectives. An open and inclusive approach is used in assessing the challenges of global talent management strategies to overcome these challenges and in charting opportunities for future talent management. These three dimensions are crucial to academic researchers and business practitioners for envisioning a positive future role of talent management in businesses and societies.

Nincompoopery John R. Brandt, 2019-07-16
CEO and award winning business writer John R Brandt offers concrete examples of how any organization can innovate in ways that delight customers and attract top level talent. Nincompoopery terrible customer service, idiotic business processes and soul crushing management practices surrounds all of us. We lose time, patience and profits as stuck in the past organizations actively prevent us and our customers from getting the value we and they deserve. In Nincompoopery Brandt leverages research across thousands of companies to show leaders how to find and kill the corporate stupidity that drives customers crazy. It usually starts by asking simple questions such as: Why should our customers have to rekey their data multiple times to make a single purchase? Why are there four levels of approval just to order basic supplies? Why can't we get qualified candidates for open positions or provide new employees with decent training? In short: How did we become such nincompoops? And when will we stop? Brandt has worked with hundreds of companies to help them outwit competitors and in this book he shares his unique blueprint for success. Nincompoopery offers leaders the answers they need and the profits they crave with a scoop of humor on the side.

Faces of Talent Till Brönner, 2014
In true Blue Note tradition the cover of Till Bronner's self titled 2012 album is in itself a work of art. The musician who had played with Natalie Cole and Dave Brubeck before he became a celebrity himself enjoys being photographed by star photographer Andreas H Bitesnich resulting in portraits that are cool but without a hint of artificiality. Bronner is not only one of the best and most successful jazz trumpet players of our time but he also has a special relationship with the visual arts. Since the moment he received his first Leica camera he discovered a love of photography and is turning the tables. He captures internationally famous musicians and actors from Beth Ditto to Armin Muller Stahl, David Guetta to Gregory Porter. Because of his musical background Bronner has the necessary feeling for timing and the right orchestration. His photographic style is spare and no method is an end in itself. The result: impressive black and white portraits that reveal unknown sides of familiar faces. When viewing these images you can immediately sense that there is a special relationship between the photographer and his subjects making these photos exceptionally compelling.

SELLING POINTS This successful jazz musician shows us another exciting facet of his artistic talent. Till Bronner's photographs will be honoured in an
