Managing Quality Fads Robert E. Cole, 1999-02-04 Can managers learn from fads That is the question Robert Cole addresses in this insightful book about the various factors supporting and inhibiting organizational learning A longtime student of the Japanese and American quality movements Cole focuses on the response of American industry to the challenge posed in the early 1980s by high quality goods from Japan While most American managers view this challenge as slowly but successfully met many academics see the quality movement that emerged from it as just another fad In seeking to reconcile these two views Cole explores the reasons behind American industry's slow response to Japanese quality arguing that a variety of institutional factors inhibited management action in the early 1980s He then describes the reshaping of institutions that allowed American companies to close the quality gap and to achieve sustained quality improvements in the 1990s

Hewlett Packard serves as an example of a company that made this institutional transition more effectively than most Cole describes Hewlett Packard s successful strategies while also pointing out the serious problems that it and other companies face as they attempt to adapt improve and go beyond Japanese practices He also uses Hewlett Packard an exemplar of the highly decentralized company to explore effective strategies for the creation dissemination and implementation of knowledge Unprecedented as a scholarly treatment of the quality movement Managing Quality Fads provides several important lessons for those interested in management decision making under conditions of uncertainty and organizational transformation in a rapidly changing business environment *Food Operations Reference Manual* United States. Symonds,2012-12-06 1 Oxford and Webster s dictionaries 2 give trans Atlantic agreement in English with a common definition for Quality as degree of excellence Compared with the many words taken up by other authors definitions this is remarkably brief and no doubt unsatisfactory to many people Yet if degree means a stage in an ascending or descending series in intensity or in amount then measurement is by definition explicitly required if terms such as quality level good quality high quality etc are to have any real meaning Using measurement is inherent in the methods of all the major writers on the achievement of business improvement through quality Results from measurements allow improvement by using tools

commonly grouped under the heading Statistical Process Control SPC Results also form part of the judging criteria of Total Quality Management TQM models such as the Malcolm Baldrige National Quality Award in the USA and the more recent European Quality Award Future revisions of the ISO 9000 series of quality management system standards will specifically require measurement of defects However it is not easy for quality professionals or line managers to find examples of what they should measure and how to do it in their own particular functions in their own particular industries case studies always seem to refer to others

Understanding the People and Performance Link John Purcell, 2003-05-01 This report the most in depth of its kind to date confirms the powerful relationships between HR practices employee commitment and operating performance It is based on a three year investigation which looked at the HR practices staff views and performance in 11 large organisations including Jaguar Cars Nationwide Building Society Selfridges and Tesco The study provides answers to why and how people management practices influence business performance to unlock what has been termed the black box Key conclusions include the most carefully thought through HR strategy is a waste of time unless it is embraced by line managers who have the skills and understanding necessary to engage and motivate employees where effective HR practices are not in place levels of employee commitment are up to 90 per cent lower an organisation needs a clear direction and purpose beyond the bland mission statement or generic goal of financial returns which engages enthuses and unites people At the Nationwide Building Society this is a commitment to mutuality At Royal United Hospital Bath it is saving lives This big idea appears essential in motivating and directing people behind the strategy of the organisation
