Mr. Calvel is known throughout the world for his research on the production of quality French and European hearth breads. *The Taste of Bread* is a thorough guide to the elements and principles behind the production of good tasting bread including a broad variety of bread products as flavored breads, breadsticks, croissants, brioches and other regional baked goods. Each important aspect of the process is covered: wheat and milling characteristics of breadmaking flour, dough composition, oxidation in the mixing process, leavening and fermentation effects, dough division and formation, baking and equipment storage.
