Georges Seurat 111 Colour Plates:

Georges Seurat Maria Tsaneva, Blago Kirov, 2015-01-09 An important Post Impressionist French painter Georges Seurat moved away from the apparent spontaneity and rapidity of Impressionism and developed a structured more monumental art to depict modern urban life For several of his large compositions Seurat painted many small studies He is chiefly remembered as the pioneer of the Neo Impressionist technique commonly known as Divisionism or Pointillism an approach associated with a softly flickering surface of small dots or strokes of color His innovations derived from new quasi scientific theories about color and expression yet the graceful beauty of his work is explained by the influence of very different sources His success quickly propelled him to the forefront of the Parisian avant garde His triumph was short lived as after barely a decade of mature work he died at the age of only 31

The Expressionist Roots of Modernism Peter Lasko, 2003 This book explores the beginnings of the interior design profession in nineteenth century France Drawing on a wealth of visual sources from collecting and advice manuals to pattern books and department store catalogues it demonstrates how new forms of print media were used to sell the idea of the unified interior as a total work of art enabling the profession of interior designer to take shape In observing the dependence of the trades on the artistic and public visual appeal of their work Interior decorating in nineteenth century France establishes crucial links between the fields of art history material and visual culture and design history
