Aizcorbe,2014-06-12 This book provides an accessible guide to price index and hedonic techniques with a focus on how to best apply these techniques and interpret the resulting measures One goal of this book is to provide first hand experience at constructing these measures with guidance on practical issues such as what the ideal data would look like and how best to construct these measures when the data are less than ideal A related objective is to fill the wide gulf between the necessarily simplistic elementary treatments in textbooks and the very complex discussions found in the theoretical and empirical measurement literature Here the theoretical results are summarized in an intuitive way and their numerical importance is illustrated using data and results from existing studies Finally while the aim of much of the existing literature is to better understand official price indexes like the Consumer Price Index the emphasis here is more practical to provide the needed tools for individuals to apply these techniques on their own As new datasets become increasingly accessible tools like these will be needed to obtain summary price measures Indeed these techniques have been applied for years in antitrust cases that involve pricing where economic experts typically have access to large granular datasets      **Consumer Price Index Revision Reference Checklists** ,1996      **Popular Photography** ,1995-11      **Kiplinger's Personal Finance** ,1988-09 The most trustworthy source of information available today on savings and investments taxes money management home ownership and many other personal finance topics      Popular Photography ,1995-09      Electronics Now ,1998      Stereo Review ,1995      Popular Science ,1995      Popular Science ,1995-04 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better      **Boating** ,2003-10      Television Digest, with Consumer Electronics ,1989
