ACTIVITY 1

QUESTION 1: REASON WHY THE WORLD WAR I BROKE OUT.

Study the source and answer the questions that follow.

SOURCE A

World War I, also known as the Great War, began in 1914 after the assassination of Archduke Franz Ferdinand of Austria. His murder catapulted into a war across Europe that lasted until 1918. During the conflict, Germany, Austria-Hungary, Bulgaria and the Ottoman Empire (the Central Powers) fought against Great Britain, France, Russia, Italy, Romania, Canada, Japan and the United States (the Allied Powers). Thanks to new military technologies and the horrors of trench warfare, World War I saw unprecedented levels of carnage and destruction. By the time the war was over and the Allied Powers claimed victory, more than 16 million people—soldiers and civilians alike—were dead.

The History of the Provincial Press in England Rachel Matthews, 2017-05-18 Regional newspapers around the globe are fighting to survive in the face of challenges to their economic model due to the constant influx of new technology At the same time while studies of the national press have created a continuous narrative on the newspaper the history of the regional press has been subject to relatively little academic scrutiny despite being a significant industry in terms of a readership circulation and profit By focusing on provincial English newspapers Matthews makes the case for the larger issue of the future of local newspapers worldwide She argues that a comprehensive approach to the

history of the regional press can result in a conceptualization of the industry in terms of the shift in emphasis between the key elements of state control ownership social influence and production techniques They can be categorized into six distinct stages the local newspaper as opportunistic creation the characterization of the local newspaper as fourth estate the impact of New Journalism the growth of chain control the shock of the free paper and new technology and finally the current picture the search for a new business model

The Unsettling of Europe Peter Gatrell, 2019-08-27 An acclaimed historian examines postwar migration s fundamental role in shaping modern Europe Migration is perhaps the most pressing issue of our time and it has completely decentered European politics in recent years But as we consider the current refugee crisis acclaimed historian Peter Gatrell reminds us that the history of Europe has always been one of people on the move The end of World War II left Europe in a state of confusion with many Europeans virtually stateless Later as former colonial states gained national independence colonists and their supporters migrated to often unwelcoming metropolises The collapse of communism in 1989 marked another fundamental turning point Gatrell places migration at the center of post war European history and the aspirations of migrants themselves at the center of the story of migration This is an urgent history that will reshape our understanding of modern Europe
