

Student Performance Rubric Report

The lead4ward Student Performance Rubric helps teachers assess student work and collect evidence of learning. Math, Science, and Social Studies utilize a "Process-Content-Process" template (K-HS). Reading includes two templates (K-2 and 3-HS) and is designed around reading process categories. The rubric features four columns designed to assess students' ability to independently apply their learning.

The reporting feature of this tool displays student names in the same visual format as the Student Performance Rubric. Use the Student Performance Rubric Report to highlight areas of success or areas where students need additional support.
