**Twenty Years of Education Transformation in Gauteng 1994 to 2014** Maringe, Felix, Prew, Martin, 2015-05-05  
Twenty Years of Education Transformation in Gauteng 1994 to 2014 An Independent Review presents a collection of 15 important essays on different aspects of education in Gauteng since the advent of democracy in 1994 These essays talk to what a provincial education department does and how and why it does these things whether it be about policy resourcing or implementing projects Each essay is written by one or more specialist in the relevant focus area The book is written to be accessible to the general reader as well as being informative and an essential resource for the specialist reader It sheds light on aspects of how a provincial department operates and why and with what consequences certain decisions have been made in education over the last 20 turbulent years both nationally and provincially There has been no attempt to fit the book's chapters into a particular ideological or educational paradigm and as a result the reader will find differing views on various aspects of the Gauteng Department of Education's present and past We leave the reader to decide to what extent the GDE has fulfilled its educational mandate over the last 20 years

**Elusive Equity** Edward B. Fiske, Helen F. Ladd, 2004-07-29 Elusive Equity chronicles South Africa's efforts to fashion a racially equitable state education system from the ashes of apartheid The policymakers who came to power with Nelson Mandela in 1994 inherited an education system designed to further the racist goals of apartheid Their massive challenge was to transform that system which lavished human and financial resources on schools serving white students while systematically starving those serving African coloured and Indian learners into one that would offer quality education to all persons regardless of their race Edward Fiske and Helen Ladd describe and evaluate the strategies that South Africa pursued in its quest for racial equity They draw on previously unpublished data interviews with key officials and visits to dozens of schools to describe the changes made in school finance teacher assignment policies governance curriculum higher education and other areas They conclude that the country has made remarkable progress toward equity in the sense of equal treatment of persons of all races For several reasons however the country has been far less successful in promoting equal educational opportunity or educational adequacy Thus equity has remained elusive The book is unique in combining the perceptive observations of a skilled education journalist with the analytical skills of an academic policy expert Richly textured descriptions of how South Africa's education reforms have affected schools at the grass roots level are combined with careful analysis of enrollment governance and budget data at the school provincial and national levels The result is a compelling and comprehensive study of South Africa's first decade of education reform in the post apartheid period
