

*T-Mag II(continued)*

## INSTRUCTIONS FOR INDEXING AND REMOVING THE TURRET OF YOUR T-MAG 11 PRESS

Your T-Mag II Press is supplied with a turret handle (item #2) which can be used for indexing or removing the turret from the reloading press. For easy indexing, insert the turret handle into one of the two holes in the turret (item #3) and turn as desired. To change or remove the turret, secure the press to a table or other fixed surface. Insert the turret handle through the cross hole in the turret shoulder bolt (item #1). Using the handle as a wrench, loosen the bolt in a counterclockwise direction and remove it from the turret. Lift the turret straight off the press frame. When dies are installed in the turret it is necessary to rotate the turret slightly so that the turret handle can be positioned between two dies. The turret shoulder bolt can then be removed by turning both the bolt and turret. To reattach the turret, simply reverse the foregoing steps.
