The Essays of Arthur Schopenhauer; On Human Nature Arthur Schopenhauer, 2020-03-06 Excerpt The following essays are drawn from the chapters entitled *Zur Ethik und zur Rechtslehre und Politik* which are to be found both in Schopenhauer's *Parerga* and in his posthumous writings As in my previous volumes so also in this I have omitted a few passages which appeared to me to be either antiquated or no longer of any general interest For convenience sake I have divided the original chapters into sections which I have had to name and I have also had to invent a title which should express their real scope The reader will find that it is not so much Ethics and Politics that are here treated as human nature itself in various aspects
