Made-to-Measure Future(s) for Democracy? Julen Zabalo, Igor Filibi, Leire Escajedo San-Epifanio, 2022-11-25 This open access volume analyses the development of democracy at different levels of governance from local to global. The Basque search for an institutional and democratic model that adapts to its social needs and solves its problems offers an interesting perspective for analyzing the way in which democracy is seeking new forms of materialization from the local to the global. The volume is divided into four parts. The chapters in Part I analyze the tensions between the neoliberal vision of democracy and the voices contesting it with projections at different levels of government. The chapters in Part II focus on the emerging framework and scales of Western democracy. The chapters in Part III present new forms of citizen participation paying special though not exclusive attention to new practical strategies for Basque society. The volume concludes with a block of chapters on the relevance of reviewing the methodological and epistemological frameworks from which knowledge about democracy and mechanisms of citizen participation is generated. Part IV. By delving deeper into the idea and practice of democratic governance this volume will be of interest to researchers and students from all disciplines of politics, international relations, sociology and law. **The Politics of Age and Disability in Contemporary Spanish Film** Matthew J.

Marr, 2012-12-07 The Politics of Age and Disability in Contemporary Spanish Film examines the onscreen construction of adolescent, elderly and disabled subjects in Spanish cinema from 1992 to the present. Applying a dual lens of film analysis and theory drawn from the allied fields of youth, age and disability studies, this study is set both within and against a conversation on cultural diversity with respect to gender, sexual and ethnic identity which has driven not only much of the past decade's most visible and fruitful scholarship on representation in Spanish film but also the broader parameters of discourse on post-Transition Spain in the humanities. Presenting an engaging and heretofore under-explored interdisciplinary approach to images of multiculturalism in what has emerged as one of recent Spain's most vibrant areas of cultural production, this book brings a fresh while still complementary critical sensibility to the field of contemporary Peninsular film studies through its detailed discussion of six contemporary films by Salvador García Ruiz, Achero Mañas, Santiago Aguilar, Luis Guridi, Marcos Carnevale, Alejandro Amenábar and Pedro Almodóvar, and supporting reference to the production of other prominent and

emerging filmmakers **The East Timor Question** Jill Jolliffe,1997 Consists of clippings correspondence photos and other documents gathered in the course of twenty years of reporting on East Timor by Australian journalist Jill Jolliffe

Contracts Between Ecclesiastical Entities According to Canon Law Joseph Clifford N. Ndi, 2018-08-28 Within ecclesiastical circles both from the perspective of legal practice and ordinary relational matters between ecclesiastical entities the theme of contract very scarcely occupies a place of prominence It is a situation that is due on the one hand and to a large extent to the fact that the canonisation of civil law on contracts c 1290 CIC 1983 has had the consequence of transferring the preoccupation of the entities on this matter to the domain of civil law Besides and still connected to the above is the tendency to attribute a merely pastoral relevance to their relationships with little or no reference to the juridic aspects inherent in these relationships It is a situation that is largely responsible for the crisis which do not uncommonly characterise some of these relationships as verified over the centuries particularly in the relationship between dioceses and religious institutes The issuance of various papal and conciliar exhortations before and after Vatican II as well as the normative instructions and legal provisions contained in various juridic documents most prominently cc 271 520 681 and 790 of CIC 1983 has gone a long way to dissipate some of the tensions of the past However the true nature of how the contractual relationship between ecclesiastical entities including the attendant issues of conceptual understanding civil status of ecclesiastical entities resolution of contractual disputes etc remains a matter of investigative interest for the canonist This is in a nutshell the substance of this

research work The conclusions arrived at offer the reader an insight into the available untapped resources within the ecclesiastical legal system as well as some considerable possibilities which remain to be explored to the benefit of the subjects of canon law

La ciencia de Cervantes Vicente Pérez de León, 2022-10-31 La vía del conocimiento de la filosofía a natural contrarreformista estuvo condicionada por la necesidad de conciliar el método escolástico con el experimental a la luz de la evidencia de los nuevos descubrimientos científicos y geográficos La cosmografía oficial hizo uso de metodologías del saber basadas en discursos como el antisupersticioso en el que se apuntaba a la confluencia de métodos experimentales religiosos y jurídicos orientados hacia una interpretación más precisa de la realidad En La ciencia de Cervantes se confirma como en pasajes que describen exorcismos interacciones entre animales y seres humanos y exploraciones geográficas de obras cervantinas como Don Quijote Persiles y Sigismunda y las Novelas ejemplares la confluencia de visiones artísticas y científicas de la época se pone de manifiesto Llama la atención especialmente el caso del Coloquio de los perros en donde se evidencia un intento de conciliar el conocimiento humanista escolástico antisupersticioso y barroco en línea con otras excepcionales obras neoplatónicas similares como son tanto el Somnium de Maldonado como el de Kepler The Counter reformation path to natural philosophy was increasingly conditioned by its need to reconcile the scholastic method with the experimental one at the light of the evidence of new scientific and geographic discoveries Official world view was supported by approaches to knowledge such as the anti superstitious discourse which were sustained by the confluence of experimental religious and legal methodologies in support of a more accurate interpretation of reality La ciencia de Cervantes shows how selected cervantine texts including the Quixote Persiles and Sigismunda and the Exemplary Novels reflect how the confluence of artistic and scientific views of the period was evidenced in the depiction among others of exorcisms animal human interactions and geographical explorations Particularly relevant is the case of the Colloquy of the Dogs showing an attempt to reconcile the conflictive confluence of Humanistic Scholastic anti superstitious and baroque knowledge in line with other unique Neoplatonist works such as Maldonado's and Kepler's Somnium

Women's Writing in Colombia Cheryl Elston, 2016-12-20 Winner of the Montserrat Ordóñez Prize 2018 This book provides an original and exciting analysis of Colombian women's writing and its relationship to feminist history from the 1970s to the present In a period in which questions surrounding women and gender are often sidelined in the academic arena it argues that feminism has been an important and intrinsic part of contemporary Colombian history Focusing on understudied literary and non literary texts written by Colombian women it traces the particularities of Colombian feminism showing how it has been closely entwined with left wing politics and the country's history of violence This book therefore rethinks the place of feminism in Latin American history and its relationship to feminisms elsewhere challenging many of the predominant critical paradigms used to understand Latin American literature and culture
